ALL THE NEWS, RELIABLE AND READABLE, THE DAY IT HAPPENS

PAPER THAT APPEALS

The aim and purpose of the Edmonton Capital is to attain the highest standard in journalism. To publish a paper that will ... the character of the better class of its readers. ... a paper that will be fresh and breezy—that w... live and up-to-date in its news, editorials, adver... d general make-up. A paper that will be an idea... r YOUTH HOME, and the home of your friends.

EDMONTON CAPITAL

LAST EDITION. Northerly winds decidedly colder during today and Tuesday; light local snowfalls. TEN PAGES

VOL. V. EDMONTON, MONDAY, JANUARY 19, 1914. No. 16

TO OUR SUBSCRIBERS

The Edmonton Capital appreciates the many messages of commendation that are sent to the publishers daily, but if the senders wished to do a REAL SERVICE to the capital they will send us the names of a few of their friends whom they think should read the paper regularly. The publishers will gladly send a sample copy free. Better still, send the publishers the dollar, and they will send the paper for five months.

Library Aug 18-13

FROM EDMONTON TO CROSSING IN TWENTY-ONE HOURS

Dr. H. C. Smith and Party Make Record Trip in North Country

PROPHESIES LARGE CITIES WONDERFUL DEVELOPMENT

Fishing Industry Promises to Make Name for Peace River.

From Edmonton to Peace River Crossing and back, about 600 miles, in 44 hours actual driving time, was the record made by Dr. H. R. Smith and party last week in a four-cylinder, 30 horse power 1911 Chalmers car, a record which will perhaps stand for some time. Part of the distance the roads were in very poor condition and the party towed another car for a few miles near Sawridge, still Dr. Smith said today that it was the most successful motor trip he ever made.

The party, one of whom was Charles Rife, of Philadelphia, who is interested in the Peace River country, left Edmonton at 7 o'clock a week ago last Saturday morning. They made Athabasca in five hours, from there to Fort Cornwall in three, and from there to Sawridge in another three, a total distance of 213 miles. After spending the night in Sawridge, they started out in a terrible blizzard which was raging on the lake, but ran into a large crack in the ice because, Dr. Smith states, they were towing the other car, and bent the axle so badly that they were compelled to take it off. However, they heated it over an improvised fire, straightened it out with an axe and put it on again. The storm on the unprotected lake was so bad that they stayed in a fisherman's shack the rest of Sunday and Monday, but on Tuesday they started out afresh at 7.30 a.m., making Grouard, 75 miles, in four hours, and Peace River Crossing, 75 miles more, in six. This put them at their destination at 10 o'clock Tuesday night, and the total time consumed in actual driving between Edmonton and the Crossing was only 21 hours.

The return journey took two hours longer, 23 hours in all, because of the larger snow-drifts encountered. The party left Peace River Crossing at 5.30 Thursday evening and arrived in the city at exactly 7.30 Saturday night, sleeping two nights on the way. On the upward trip they ran for 40 miles in one stretch on the high road, including the time taken to pass teams and other autos. They saw the moto belonging to Hon. C. W. Cross, which broke down on the lake during the attorney general's recent journey, at Grouard.

Dr. Smith, who is one of the firm of Smith Brothers, limited, real estate brokers, says that Peace River Crossing will become a large and important point. The town or city, he says, will be on both sides of the river, though most of the good farming land seems to be on the west side. He has brought down a trout 38 inches long. He states he saw a fisherman draw out a net with seven different varieties of fish.

AMERICAN TELLS THRILLING STORY OF JAPAN VOLCANO

Says Eruption of Sakura Jima Resembled a Niagara of Fire.

Tokio, Jan. 19.—A narrative of the eruption and earthquakes which devastated the island of Sakura and town of Kagoshima, destroying thousands of lives, on January 12, is given today by Theodore R. Hoyer, of Wisconsin, who was an eye witness. He says: "The volcano of Sakura Jima the beginning of the eruption resembled a Niagara of fire from which masses of molten stone were hurled long distances.

"During the night of January 11, a loud explosion was heard, followed by a flash of flame, and a cloud of ashes rising many thousands of feet. Beneath the cloud of smoke and ashes streams of lava could be plainly seen flowing down the slopes to the sea. The forest of the mountain sides quickly caught fire and flames spread to the houses of the numerous little villages nearby.

"The entire western coast line seemed to be ablaze and a strong wind carried smoke, gas, and hot ashes straight to the mainland."

Cannot Locate Submarine.

Plymouth, Jan. 19.—A dozen torpedo boat destroyers and mine sweepers plied up and down White Sand bay from early morning yesterday until darkness set in, but failed to locate the submarine "A7" which sank during manoeuvres on Friday.

BARRISTER GOES DOWN FIVE YEARS ON THEFT CHARGE

London, Jan. 19.—Five years in the penitentiary was the sentence imposed on Thomas W. Luscombe this morning by Judge Elliott on charges o ftheft and misappropriation of funds entrusted to his care. Luscombe for years was one of the best known barristers in this city. In passing sentence, Judge Elliott said he would like to be lenient but felt that a severe punishment was necessary because of the high standing of the members of the legal profession in London and throughout the province.

WHITNEY BROUGHT BACK TO CANADA; MUCH IMPROVED

Ontario's Premier Stood Journey Well, and Dr. Pyne is Satisfied with Condition

TROUBLED SICK MAN TO BE IN STRANGE CITY

Hoped That Knowledge He is in Toronto Will Help in Fight Against Death.

Toronto, Jan. 19.—After lying sick in a strange hotel, in a strange country since December 4, Sir James Whitney is back in Toronto and is now resting comfortably in a private ward at the General hospital.

With total unexpectedness, Sir James was removed last night from the hotel in New York and transferred to the New York Central train for Toronto. The move was rendered possible by two days of continuous improvement in the patient's condition, though the change came as a complete surprise.

Taken to Hospital.

Thirty-five minutes behind schedule time, the train which carried the Ontario government's private car "Sir James," arrived at the union station this morning, and in a very quiet and orderly manner the sick premier was transferred to an emergency ambulance and taken to the General hospital.

Dr. Pyne, immediately after the safe transfer of the premier to the ambulance, made the announcement that Sir James had stood the journey as well as could be expected and that he was satisfied with the change to his home city. He added that the premier is still in a much weakened condition and that they took the risk of the journey on Sir James, so that he could be in his home city.

"We made up our minds quite suddenly to have the premier brought back," he stated.

"It had apparently been on the premier's mind for some days and it seemed to be troubling him so much to think that he was in a strange city, that we decided to take the first opportunity to have him brought home. His condition had been improving steadily for two days. Night before last he slept well, and yesterday forenoon he was so much better that we saw the opportunity had come. We took advantage of it and now we are all glad to have him home again.

"He spent as good a night on the train as could be hoped for. He slept very well although at times he seemed to be wandering in his mind. He is quite weak this morning, though it is hoped that the knowledge that he is in his own city will greatly advance his condition.

ANOTHER STEAMER IS DETAINED FOR TYPHUS OUTBREAK

Second Vessel in Two Weeks Quarantined at New York on This Account

New York, Jan. 19.—Another typhus ship, the third within two weeks, was detained at quarantine today by Dr. Joseph J. O. Connell, health officer of the port. The vessel is the Kaiser Franz Joseph I. of the Austro-American line, a sister ship of the Belvedere, from which a case of typhus fever was removed on Saturday. The Kaiser Franz Joseph I. came from Adriatic ports.

The patient on the vessel was removed to Swinburne Island, where the case was diagonesed this morning as typhus. The Belvedere took two passengers on at Patras, and the Kaiser Franz Joseph I. touched there. The patient on board is a former Montenegran soldier, he boarded the vessel at Trieste.

Many Alpine Accidents.

Milan, Jan. 19.—The number of victims of Alpine accidents during 1913, was 102, according to statistics made public here.

Lord Strathcona, as He Looked When in Edmonton on September 7, 1909

C. C. Chipman. Premier Rutherford Lieutenant-Governor Bulyea
Father Lacombe Lord Strathcona

UNITED FARMERS INVITED TO CITY FOR 1915 MEETING

Annual Convention Is Being Held This Week in Lethbridge.

Alderman Sheppard leaves the city today as a delegate to the convention of the United Farmers of Alberta, which is being held this week in Lethbridge. He appeared before the commissioners this morning with the suggestion that the city should take some action in the matter of arranging that this convention be held in the city of Edmonton next year. This suggestion appealed to the board, the opinion being expressed by the mayor and commissioners that the capital city is the proper place for such conventions.

Alderman Sheppard then explained that there are some five hundred local unions and that each union sends two delegates, which means that there will be over 1,000 in attendance this year at Lethbridge. Each delegate will spend at least $10 in the city and this represents the sum of $10,000. Alderman Sheppard stated that such conventions should be held in the capital city if it is possible to make the necessary arrangements.

The commissioners agreed that an invitation should be extended from the city for the 1915 convention. The secretary has been instructed to draw this up and hand to Alderman Sheppard to take with him to the Lethbridge convention. The action of the board will then be confirmed by the council on Tuesday evening and a telegram to that effect forwarded to Alderman Sheppard.

The most important provision on the part of the city is to arrange for a hall sufficiently large to accommodate upward to 1,000 delegates and it was suggested that if no better hall is available the council may arrange to rent for three days the Empire auditorium or some other available central auditorium for the purpose

CAPETOWN RAILWAY STRIKE PRACTICALLY ENDED ON SATURDAY

Capetown, Jan. 19.—The railway strike practically ended Saturday night with the decision of the operating force to resume work immediately. The strike of the miners also is rapidly nearing its end. It is estimated that the mobilization of the burghers will cost the government between $1,250,000 and $1,500,000. A proclamation was issued at Pretoria today de-mobilizing all the commands and regiments except those in the Rand and the Pretoria and Faursmith districts. It is said, 4,500 men will still be retained in the field.

LORD STRATHCONA RAPIDLY SINKING LATEST BULLETIN

Edinburgh Law Agent Makes a Record Run in Special Train to Bedside.

MILE A MINUTE TIME RECORD FOR THE TRIP

Condition of the Patient Gave No Outlook for Hope Last Two Days.

London, Jan. 19.—At 5 p.m. it was announced that Lord Strathcona was sinking rapidly. There has been no hope the last two days.

In response to a hurried summons to Lord Strathcona's bedside, his Edinburgh law agent chartered a special train from Princes street station at 12.58 p.m. on Saturday and arrived in London at 8.50 p.m., the time for the 400 mile journey being seven hours and 52 minutes—a record.

The only stops were made at Carlisle and Crewe, where the engines were changed. The first stage of the journey, from Edinburgh to Carlisle, a distance of 101 miles, was covered in 103 minutes.

KRAFCHENKO HURT SO SERIOUSLY HE SEEMS PARALYZED

Received Fall From the Police Court Window When Making His Escape

Winnipeg, Man., Jan. 19.—John Krafchenko is so seriously injured by his fall from the police court window when making his escape that his right leg may be permanently paralyzed.

Such is the statement today of the provincial jail physician, Dr. A. B. Carscallan, who has made a careful examination. There is injury to the spine, which may cause paralysis, and the is quite apart from the severe injuries to the right leg, ankle and foot. Apparently falling 30 feet to the icy pavement Krafchenko hit an obstruction, possibly a window ledge. This accident effectually put an end to any plans for a clean getaway from the city, and during the eight days Krafchenko lay hid in the security storage warehouse and in the Toronto apartment, he must have suffered at times excruciating pain. Lack of medical attention may lead to serious complications.

The royal commission of enquiry is sitting this morning, in the city hall and at the police court the men charged with assisting came up.

Constable Flower, the guard who was with Reid in Krafchenko's cell at the time of the escape, is said to be cleared entirely of blame in the eyes of police officials. He is in no way connected with the escape.

The story of the escape and Flower's actions were told last night. When Krafchenko drew his gun he covered Flower, who was 20 feet away and could not hope to jump the man without being shot. Nevertheless, he stood for fully five minutes crouched and ready to spring. He turned to Reid and said "lets blow our whistle."

This suggestion was unheeded by Reid who replied that they would get shot. None of the other guards who had charge of Krafchenko are believed to be in any way implicated in the escape and the police state that they have all been completely cleared.

ARGENTINE WHEAT NOW ON FREE LIST OF UNITED STATES

Washington, Jan. 19.—Argentine wheat is at last on the free list and can enter the United States without payment of duty. Assistant secretary of the treasury Hamlin, in charge of the customs, informed Secretary Bryan Saturday that Argentine had taken the last step to comply with the tariff act, and in consequence wheat and wheat products from Argentine had been admitted free.

To comply with the American tariff Argentina recently removed the duty she imposed on imported semolina, a product of wheat.

NO. 1 HARD WHEAT IS WHAT PEACE RIVER PRODUCES

Inspector of Surveys Tells of Dunvegan Farmer's Crop of 1,400 Bushels.

NORTH DEMANDS STRONG, NOT WEAK OR LAZY MEN

Advises "Get-Rich-Quick-Wallingfords" to Stay in Southern Parts

"I could see a big difference in parts of the Peace River country between the time I went up and when I came down. That shows you how fast the country will develop as soon as it gets railway facilities. I noticed land being brought under cultivation on the trip down which was untouched going up, and dozens of shacks built, shacks which are but the fore-runners of comfortable homes and the other edifices which will be the natural evolution of that great territory."

So spoke L. E. Fontaine, dominion government inspector of surveys for the Peace River district, whose home is at Levis, Quebec and who is staying at the Alberta hotel for a few days settling up the season's business preparatory to reporting at the department of the interior at Ottawa.

He left Edmonton last June going to Spirit river, thence via Grande Prairie to Wapiti river, thence to Beaver lodge, thence via the old Peace River trail to Fort St. John. After considerable inspection work at each of these places he went to the White Mud river, coming back to the city via Peace River Crossing and the first southbound train on the Edmonton, Dunvegan and B. C. railway.

Mr. Fontaine says that a large amount of land was surveyed last season by the dominion government, but there will be still more in 1914. There are already important settlements scattered here and there through the whole country. One settler, H. L. Propst, formerly of the Cariboo district in British Columbia, whose land is about 10 miles north of Dunvegan, raised no less than 1400 bushels of No. 1 hard wheat and 1800 bushels of oats last year. Some of the wheat was made into flour at the mill which is running in the Shaftesbury settlement near Peace River Crossing.

"There are great possibilities," said Mr. Fontaine to the Capital this morning, "for a man that goes into that country, almost any part of it, if he wants to work. But if a man is looking for something big without expending any energy at all he better stay away."

JESSE COLLINS FOLLOWS EXAMPLE OF OLD LEADER

Born in Laborers Cottage Rose to Be Member of Privy Council.

London, Jan. 19.—The Right Hon. Jesse Collins, who from a laborer's cottage in Devonshire rose to be a member of the King's Privy Council, has decided to follow into retirement his leader, Joseph Chamberlain, who a few days ago announced that he was about to give up political life. Mr. Collins, who is 82 years old, said today that he would not at the next election renew his candidacy for the Bordesley division of Birmingham, which he has represented since 1896.

The aged statesman has always been greatly interested in popular education. His study of the school system of the United States led him in 1868 to publish a remarkable pamphlet which did much toward the introduction of compulsory free education in England in 1870.

Mr. Collins' political career has been principally occupied with the welfare of the agricultural laborer.

MAYOR M'NAMARA OUTLINES POLICY FOR PUBLICITY

Suggests That This Branch May Be Affiliated With the Ad Club

PRESIDENT MAGRATH IS ALSO IN HARMONY

Idea is to Get More Tangible Results for Money Spent on This Work

That the publicity branch of the civic administration may at some time in the not distant future be affiliated with the work of the Edmonton Ad club is the kernel of Mayor McNamara's statement to the members of the press today.

"We do not intend to do away with the department," said his worship, "but we want to put it on a basis where we can see some tangible results. Of course, publicity work is very much like newspaper advertising; it is difficult to see the results. James Ramsey does not know whether or not it pays him to advertise, but he does a big business and has adopted advertising as a part of his policy. The same may be said of T. Eaton and other large concerns who are large advertisers."

When asked if the intention was to give the publicity department over to the care of the Ad club the mayor went on to explain that such would never be the case. He referred to Spokane and other cities where a chamber of commerce has been established, stating that when he had visited some of these cities recently he was soon whizzed to the chamber of commerce, where it was possible to get all kinds of information.

The mayor went on to explain how it might be worked out successfully in Edmonton. He referred to the 1,500 live members of the Ad club who will get in touch with all the influential men as fast as they arrive in the city. If the city's publicity department is handled in the same building, then all these people can be shot directly at Mr. Hall. The mayor stated further that President Magrath is in harmony with this idea and will work toward making it a success, but the publicity agent will be under the direction of the administration.

The idea of calling the publicity agent of the city an industrial commissioner appeals to his worship as "a joke." He does not believe that it was good business to have the department operating under this name, because the work done by the department has been much more extensive and the efficiency of the department or the results obtained must not be measured by the number of industries which the city has obtained.

In conclusion, the mayor referred to the forthcoming meeting of the Ad club on Thursday noon next when the members of the city council, the commissioners and other city officials will outline the policy for the present year.

"I cannot speak for the council," said his worship, "but I will present some of the problems as they appeal to me personally at that meeting, as the council has not yet definitely outlined the complete policy."

THIRTY MINES TO CLOSE AS RESULT RAILROAD STRIKE

Five Thousand Men on the Deleware and Hudson System Quit Working

Albany, N. Y., Jan. 19—Approximately 5,000 men employed by the Delaware and Hudson railroad company, walked out quickly today. The strike order was issued last night to every union engineer, fireman, conductor, trainmen, and telegrapher at work along the line from Rouses Point, New York, to Wilkes Barre, Penna.

Mediation from both nation and state has been refused by the company. The men demand the reinstatement of two men who were discharged from work.

Scranton, Pa., Jan. 19.—The Delaware and Hudson railway tie-up today is complete, the Pennsylvania division alone from Ninive to Wilkes Barre furnishing 2,200 of the men who are on strike. These are the figures of Clinton Morgan, acting superintendent.

If any trains are run during the day or get into service before the strike is settled, they will be those that handle the mail, but no attempt will be made to carry passengers.

Not only does the strike tie up the railroad, but it will mean the shutting down of about 30 coal mines operated directly by the Delaware and Hudson company in the Lackawanna and Wyoming valleys, but upwards of 20 other operators, whose product goes out over this railroad, in all affecting at least 30,000 men in the mines.

AMERICAN CANADIANS PLANNING A MONSTER GATHERING THIS YEAR

Object is to Make Common Cause With Fellow-Canadians in Every Enterprise Designed to Exalt the Home in Canada, and Canada Among the Nations—To Cherish Common Ideals.

AIMS OF AMERICAN-CANADIAN ASSOCIATION.

"To bring into fraternal association the Americans in Canada;

"To cherish in common the ideals to which the American people have ever been devoted;

"To inspire in the hearts of our children a just pride in the achievements of the British empire and the American republic; and

"To make common cause with our fellow-Canadians in every enterprize designed to exalt the Home in Canada, and Canada among the nations."—Membership declaration of the American-Canadian association.

An organization which gives promise of rapid growth, and which aspires to unite the many thousands of American-born residents of Canada into one compact body, in the recently-formed American-Canadian association. One of the leaders in the new movement who is in the city today, talked interestingly of the plans and scope of the association. "While we have not conducted any aggressive membership campaign thus far, the interest already developed leads us to believe that the organization will number upwards of 20,000 before the end of the year," said the enthusiastic committeeman, "and if we are able to accomplish all that we anticipate it will not be very long before the association becomes one of the strongest fraternities, numerically, in the Dominion. The declaration of membership provides a platform upon which all Americans in Canada can consistently stand. The organization will be non-partisan and non-sectarian.

"We recognize no inconsistency between the ideals and inspirations of Canadians and Americans," said the official, "and we hold that to treasure the memory of the great Americans, and the principles they lived for, is to better equip us to meet the responsibilities of citizenship in Canada. We are all Canadians now, and in no way can we reflect more credit upon our native land than by reflecting credit upon the land we have adopted."

There are nearly a million Americans in the Dominion at present and the majority of them are in the west. Until now there has been no attempt to solidify them, however, and the American-Canadian association seems to have a bountiful field in which to garner. The publication of a weekly bulletin, containing a review of important happenings in the states, is one of the possible early developments suggested and this bulletin will doubtless be constituted the official organ of the association.

Reunion Is Planned

It is understood that those who are directing the affairs of the association in its early stages are perfecting plans for a great American reunion, to be held at some central point in western Canada late this year. It is believed that from 25,000 to 50,000 "Yankees" will meet in more or less solemn conclave. There will be prominent American and Canadian speakers of course, and sub-conventions for the natives of the different states. That will naturally inspire the Kansas, the Missourians, the men and women from Iowa and Nebraska—in fact, from all the states, to make their respective conventions bigger than any of the others. It all opens up unlimited possibilities for the American-Canadian association is, potentially at least, a great big institution.

The temporary headquarters of the association are at Medicine Hat, and it is the desire of the officials that the names and addresses of American residents of Canada be sent in as rapidly as possible.

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

NEW ALLAN LINER, ALSATIAN, MAKES HER MAIDEN TRIP

The Allan line office, Liverpool, cabled W. R. Allan, general agent of the line, Winnipeg, that the new R. M. S. Alsatian sailed on her maiden voyage three p.m. Saturday and aroused great interest. There was a splendid send-off before an enthusiastic crowd and the steamer was much admired. On Friday there was a grand lunch at which 500 agents and government officials were present, Hugh A. Allan, chairman of the line, presiding. All agents expressed themselves most enthusiastically regarding arrangements for comfort of passengers in all classes—the opinion expressed that they surpass anything afloat. This steamer sails on her return from Halifax January 31st.

RUMOR CIRCULATES THAT RUPERT MET END BY FOUL PLAY

The inquest which was to have been held on Saturday afternoon, to inquire into the death of H. Rupert, the young man who was found dead in a room in the Queen's hotel, has been adjourned until next Friday, in the meantime a post mortem and examination will be made.

It was at first thought that the man had died from poisoning through eating candy, part of which was found in the room of the deceased, but rumors have begun to circulate that the man met his death through foul play, in support of this is the fact, that the man is said to have had a large sum of money on him the last day that he was alive, this money included a $200 bill, when the body was found by the police, there was only a dollar bill and 25 cents in silver in the man's pockets.

Famous Explorer Dead.

Paris, Jan. 19.—Fernand Foureau, the African explorer, died on Saturday from congestion of the brain. Deceased was born in 1850. He completed in 1898 his ninth expedition in the Sahara district, which he had been prosecuting chiefly at the expense of scientific societies for about ten years.

PEOPLE'S FORUM HAS MEETING AND ELECTS OFFICERS

Mayor McNamara, A. T. Cushing, Alderman Clarke and I.W.W.'s Make Speeches

WELFARE LEAGUE IS SEVERELY CRITICISED

Problems of the Unemployed Are Dealt With at Some Length by the Orators

The old Presbyterian church at Third and Jasper was the scene of a lively discussion last night on questionns arising out of the unemployed situation. Among the speakers were Mayor McNamara, A. T. Cushing, Alderman Clarke, James Rowan and the I. W. W., James Brown and others. The meeting was well attended. It was held under the auspices of the People's Forum, an organization the objects of which as stated by the chairman are the discussion of all questions touching on civic and general welfare.

A. T. Cushing presented some of the causes for the present conditions as they exist in Edmonton. He laid emphasis on the fact that the government is doing nothing to stem the tide of immigration at a time like this when there is not the demand for foreign laborers such as has existed for several years past. The recent real estate boom, unprecedented in the history of the American continent, he blamed for a great deal of the present depression and the cause for much of the trouble in many cities of the west.

Mayor Scores Welfare League

In presenting his views of the situation, Mayor McNamara first stated what he thought of the I. W. W. and then told how he viewed the Welfare league. In speaking of the I. W. W. he said that while they have been very much reviled against and misunderstood, the main trouble as he saw it was that they did not differentiate between right and wrong.

The Welfare league of which A. T. Cushing is president was scored by the mayor, not so much in reference to what they had done but because of what they had not done. He told of how the whole situation of the unemployed had been turned over from the Welfare league and the 1913 council to the present administration. The whole burden had been thrown on his shoulders and the shoulders of the new council. He told that with the assistance of the unemployed league the administration has been able to assist to the extent of at least 90 per cent. the unemployed of the city. He scored the league for their lack of co-operation and support in the efforts being made to relieve the situation.

Policemen Called "Bullies"

James Rowan, a member of the I. W. W., took the floor following an announcement from the chairman that the meeting was open to discussion. He supported the members of the unemployed in their recent actions at the fair grounds and characterized as "bullies" the police officers who were called in to keep order.

The election of officers for the People's Forum then took place and resulted in the election by acclamation of J. B. Turner, president; C. S. Spencer, vice-president and O. C. Skow, secretary-treasurer. It is the intention of the Forum to hold regular meetings every Sunday evening. Next Sunday the meeting will be addressed by Joseph Adair, his subject being "Some Municipal Problems."

Sleepy After Meals? Unnecessary!

WRIGLEY'S SPEARMINT

Hastens Digestion Keeps You Lively

Don't waste the precious hours of the evening. Get your sleep from weariness—not from slow digestion. This refreshing mint leaf juice hastens digestion—keeps you alert, besides cooling your mouth and throat and brightening your teeth splendidly.

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:
Sincerity--Enthusiasm--Advertising:
Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. ¶ If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

CITY COUNCIL WILL CONSIDER 1914 ESTIMATES

Complete Copies to Be on the Desks of the Aldermen on Tuesday Evening.

LARGE EXTENSIONS WATER AND SEWER

Work Will First Be Done, then the Actual Cost Assessed to Ratepayers.

The estimates of capital and current expenditure necessary for the various departments of the city of Edmonton will be completed today by the mayor and commissioners and sent up to council on Tuesday evening. With the money market still uncertain, the commissioners have been giving considerable time and attention to the estimates this year, and many times they have drawn the blue pencil through items which they consider are not necessary.

With their work completed it will then be the duty of the city council to pronounce on their judgment and it is anticipated that the members of council will also take a very lively interest in the estimates and particularly the capital expenditure. It is not probable that much will be done on Tuesday evening, as other business will take up most of the session. The mayor has suggested that the council adjourn to meet some morning at ten o'clock and sit continuously if possible until the estimates have all been gone over and approved or amended.

Cost First Ascertained.

The announcement made on Friday by Mayor McNamara that the local improvements in future will be first completed and then assessed at actual cost figures will also be a consideration in passing on the estimates. It will mean that wherever new work is undertaken the funds for carrying this work to completion must be provided by the banks, as was the case prior to 1913, when the whole system was changed and the cost of the work estimated, the debentures issued and marketed before actual construction commenced. This system has made no end of trouble and the mayor announces that it will require at least three months to straighten out the tangle and remit to the ratepayers the amount overcharged in their taxes under this system. In some instances the estimates were not high enough, in which case another assessment will be made for the additional amount.

The policy of the present administration is to curtail wherever possible, so that the debenture issue may not be nearly as large as that marketed in 1912. In the case of the street railway, where the capital expenditure for 1913 was over $1,500,000, it will be comparatively light this year. The superintendent has strongly advised that there be no street railway extensions and this attitude is endorsed by the commissioners. The year will be devoted to making the present line pay before other extensions will even be considered.

Water and Sewer Extensions.

The extension of the water and sewer mains will be carefully considered and these will be made as extensive as possible. The south side will come in for a large proportion of the money spent on these utilities, and the close of 1914 will see many new districts served. The disposal of the sewage will also be given serious consideration, and the erection of a proper disposal plant discussed in connection with the passing of the estimates.

There are several public buildings which should have been completed last year, but owing to financial conditions there were not undertaken. For this reason they will in all probability be passed in the estimates and completed this year. The most important are the new central police station and fire hall, to be erected at an approximate cost of $350,000 two new firehalls, an addition to the power house, and the completion of the new market building on First street, the contract for which has already been let and the excavation for the basement completed.

NEW YORK SCOTS WANT SPENCE TO SPEAK AT DINNER

Gavin Spence of Edmonton, representative in Western Canada for the Chappell pianos, was in the city yesterday on business. It is about 14 years since he was in Saskatoon and he expressed mild but decided Scotch surprise at the change in that time. On his former visit Mr. Spence gave a Scotch entertainment here. Yesterday he got a wire from Col. Weir a leading New York Scot, requesting Mr. Spence to propose the "Immortal Memory" at the Waldorf Astoria, Jan. 25. He will likely respond.—Saskatoon Phoenix.

CANADIANS SHOWING CLEVER ENTERPRISE TO GET IMMIGRANTS

Washington, Jan. 19.—Testimony Saturday that the Canadian government had been paying for the circulation of news articles in "patented inside" of newspapers to induce Americans to go to Canada led the senate lobby committee off on a new line of investigation. The statement of the action of the Canadian government was made by Courtland Smith of New York, president of the American Newspaper association. The committee decided to call George Joslyn, president of the Western Newspaper Union, of Omaha, Neb.

Smith declared he had positive knowledge that the Canadian government paid from $160,000 to $260,000 a year to the Western Newspaper Union for the circulating of matter purporting to be news articles, which misrepresented conditionns in Canada and induced some 400,000 Americans to cross the border. He said he had declined to handle the Canadian matter.

Bulgaria Sells Rifles.

Constantinople, Jan. 19.—Bulgaria has sold to the Turkish government, according to authoritative reports, 200,000 Mauser rifles which the Bulgars captured from the Turks during the war.

W. S. White has donated 38 acres of land to Rockland, Me., for park purposes.

WAS TROUBLED WITH BOILS AND CARBUNCLES.

There is no more frequent source of illness than that arising from bad blood, for when the blood becomes impure, it is only natural that boils, pimples or some other indication of bad blood should break out of the system.

Boils in themselves are not a dangerous trouble, but still at the same time are very painful, and the only way to get rid of them is to cleanse the blood of the impurities. Cleanse it thoroughly by the use of Burdock Blood Bitters, that old and reliable blood medicine that has been on the market for nearly forty years.

Mr. James Wilds, Plaster Rock, N.B., writes:—"I was greatly troubled, a few years ago, with boils and carbuncles, and the doctor told me I was in a bad condition. My appetite failed me, I began to lose strength, and was pretty well run down when one of my friends recommended Burdock Blood Bitters. After using three bottles I began to feel like another man. My troubles soon left me, and to-day I can certainly give Burdock Blood Bitters a high recommendation to my friends."

CURLING DISPUTE SETTLED AT CALGARY ANNUAL MEETING

Edmonton Won Their Point and May Hold "Spiel" Same Time as Provincial Bonspiel.

DATE SET FOR THIRD WEDNESDAY IN JANUARY

Annual Bonspiel Will Be Held Alternately in Edmonton and Calgary.

Edmonton curlers scored a decisive victory over their Calgary friends at the annual meeting of the Alberta branch of the Royal Caledonian Curling society, last Saturday night.

After a lengthy and somewhat stormy session, during which many motions were read and discussed, the Edmonton curlers won their point, which calls for the annual bonspiel being held alternately in Calgary and Edmonton during the third week in January, and allowing either city to hold a bonspiel at the same time, providing the details of same do not clash with the annual affair.

This is Calgary's year for the annual bonspiel, but there are several hundred curlers in Edmonton, many of whom are unable to attend the spiel in the southern city and would like to hold a bonspiel of some sort here, in fact the local curlers want a bonspiel every year, no matter where the annual affair is being held.

The following motion was passed at the meeting, and accedes to Edmonton the point they were after: Moved by Brown of Red Deer, seconded by Miller of Strathcona, that this meeting expresses its approval of the suggestions in the letter from the Capital Curling and Royal Curling clubs, to the effect that either Calgary or Edmonton may have its own bonspiel when the provincial bonspiel for that year is not held in that city, but the dates be subject to the approval of the executive of the Alberta branch.

Another motion was passed to the effect that the provincial bonspiel each year begin on the morning of the third Wednesday of January and other clubs should not be allowed conflicting dates.

The officers for 1914 were then elected as follows: Patrons, H. A. Sinnott, D. J. McNamara, Hon. W. H. Cushing, Archie McKillop; president, Arthur Davies, Edmonton, first vice-president, John Irwin, second vice-president, Bert Polle; chaplain, Rev. F. D. Roxborough; secretary-treasurer, Robert Pearson.

Fire Kept Busy.

Three calls have been registered on the fire-halls late since Saturday afternoon—The most serious was to the home of Mr. McLeod, First avenue, south side. The fire occurred about 4 o'clock on Saturday afternoon. The house was almost totally destroyed.

At 3.10 yesterday afternoon the firemen had a run to 232 Eighth street, where a small blaze had been caused by an overheated chimney. A call was also sent in last night to 131 Boyle street, where an overheated stove pipe caused a little trouble. No damage was done in the last two cases.

Hold Regular Meeting.

The Loyal Order of Moose will hold their regular meeting on Tuesday evening, January 20. It is also desired to draw attention to the fact that this order has changed their regular weekly dancing night from Friday to Monday. This change will take effect on Monday, January 19.

NO STOMACH MISERY, INDIGESTION, GAS, SOURNESS—PAPE'S DIAPEPSIN

Time it! In five minutes your sick, upset stomach feels fine.

Sour, sick, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes stomach distress go in five minutes. If your stomach is in a revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it it's millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless stomach preparation which truly belongs in every home.

CLAIMS GOSPEL IS NOT FAILING IN ITS MISSION TO CONVERT

Dr. Heard, of Vancouver, had a heart to heart talk with his hearers yesterday afternoon in the Empire auditorium. He cheered the hearts of all, however, by assuring them that the purpose of the gospel was not failing in the least; it was accomplishing the thing whereunto it was sent; and that a wonderful work is about to be performed in behalf of the world in general.

"The word 'gospel' meant good tidings," he said. "Jesus instructed His disciples to preach the gospel of the kingdom to all nations for a witness, but never once in the whole Bible is it even hinted that the nations would all receive the gospel and be converted. On the contrary, Christ plainly stated that His followers would be hated by the world, and that seducers would wax worse and worse, deceiving and being deceived. This did not sound much like converting the world. Jesus seemed to infer that the opposite would more likely take place. In fact, they sometimes wondered if the world was not succeeding fairly well in converting the church to its ways. The Lord asked: 'When I come again, shall I find faith on the earth?' Alas, it was feared, not much! Many Christian people of today were rapidly losing their faith in the gospel which we were instructed to preach."

Continuing the speaker said: "The gospel is a grand success in the purpose for which it was intended. By means of the gospel God did visit the Gentiles to make out of them a people for His name.' This does not say that He wished to get all the Gentiles; 'Many are called, but only few are chosen.' In selecting the church, not every one who says, 'Lord, Lord,' shall inherit the Kingdom of Heaven. Only a few are willing to give their all to the Lord, and accept Him as their real Master."

Concluding Dr. Heard said: "The gospel was not a failure, it had not converted the world. The world has been left in darkness. The majority of mankind have lived and died with no knowledge whatever of the way of salvation. In fact, the Bible clearly shows that the world will not receive the light until satan is bound so that he can deceive the nations no more, and the Lord's kingdom comes and His will is done on earth. Then shall every knee bow and every tongue confess that He is God. Today no one can come unto the Lord, except the Father draw him. This earth will not be paradise lost, but paradise regained.

OLDEST CANADIAN DIVINE DIES; WAS 95 YEARS OF AGE

Monireal, Jan. 19.—The oldest Presbyterian minister in Canada died here on Saturday. He was the Rev. Thos. Wardope, D.D., born at Lady Kirk, near Berwick on Tweed, Scotland, in 1819, when George the III. was king, so that Dr. Wardope lived through the reigns of four British monarchs and in part of the reigns of two others. Coming to Canada when only 15, Thomas Wardope for a time taught school here. A year or two later when Queen's college was started at Kingston, Ont., he offered himself as a candidate for the ministry. Beginning his studies at Kingston, he shortly afterwards moved to Toronto and attended Knox college. He was ordained to the ministry in 1845, and took charge of Knox church Bytown in 1869 he was called to the New Chalmers church at Guelph, Ont. After a quarter of a century's work there, he retired from active ministry at he age of 75 years.

He leaves four sons, Thomas W., of Chicago; J. Wyner, London, Ont.; George, Montreal, and William F., (K.C.), Hamilton, and one daughter, Mrs. Grier, of Montreal. The funeral will take place Tuesday at Guelph, Ont.

Young People's Concert

The musical Eckharts who have been travelling for the past 14 years in the concert business ,and who have established for themselves an enviable record throughout the United States and Canada, have been secured by the young People's society of Westminster church to appear there on Tuesday evening, January 20.

DOAN'S KIDNEY PILLS

Are The Original Pill For The Cure Of Backache, Lame Back, Weak Back Or Any Other Kidney Trouble.

The fact that Doan's Kidney Pills are the original Kidney Pills has not prevented the placing of other preparations in pill form upon the market under the name Kidney Pills. It is necessary, therefore, that all wishing to secure the curative effects which have made Doan's Kidney Pills so popular, everywhere, should see that the trade mark, the Maple Leaf, appears on the wrapper. Without this trade mark you are not getting the genuine Kidney Pills as originally placed before the people by Mr. James Doan, as shown by the following declaration.

DOMINION OF CANADA, PROVINCE OF ONTARIO, } To Wit:

In the matter of Doan's Kidney Pills.

I, James Doan, of Kingsville, in the County of Essex, Druggist, do solemnly declare that Doan's Kidney Pills were first manufactured and sold by me on the 14th day of February, A.D., 1885.

And I make this solemn declaration conscientiously believing the same to be true, and knowing it is of the same force and effect as if made under oath and by virtue of "The Canada Evidence Act 1893."

Declared before me at Kingsville, in the County of Essex, this 27th day of July, A.D., 1896. } James Doan.

W. A. Smith, A Commissioner, etc.

Price, 50c. a box, or 3 for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SMITH NOW A BEE HIVE OF INDUSTRY

Arrival of Railway Has Meant Era of Development For Divisional Point.

AWAITED STEEL FOR YEARS

Hundred Men Employed at E. D. and B. C. Bridge to Span Athabasca River.

That there will son be a good sized town on the line of the Edmonton-Dunvegan and B. C. railroad, 131 miles north of Edmonton, is the belief of John W. Currie, of the Peace River Land and Development company who made the trip on the first passenger train over the new line from Edmonton last Thursday.

The run from Edmonton was made in 11 hours.

Among those on board the first train were J. D. McArthur, president of the road, chief engineer, W. R. Smith, Superintendent Pace, and Right-of-way Agent Peter McArthur. John Brown had the distinction of being the engineer and Kinney McClellan the first conductor over the new line. The entire trip was made without mishap and every person on the crowded train seemed to enjoy the initial trip.

The town of Smith is situated at the intersection of the Athabasca and Lesser Slave rivers, both of which are navigable to large steamers and freighters for many miles north and south of the town. It is to be the first divisional town of the E. D. & B. C. north of Edmonton and arrangements are now under way for the erection of machine shops, round house, water tank and station.

There is already at Smith a population of about 1,000 persons, mostly squatters, living in shacks and tents, who have for years been awaiting the arrival of the steel, and are now desirous of securing land for building purposes.

A large saw-mill has been in operation at Smith for some time past, there being an abundance of big timber on the vast areas bordering on the Athabasca and Slave rivers, and the mill will be in full operation the year around.

The E. D. & B. C. railway have at present about 100 men engaged on the work of erecting the huge cement piers for the big bridge that will span the Athabasca and hence carry the steel on and on westward to Peace River Crossing and through Pine Pass to Fort George. Two of the six piers are already completed and a substantial pile bridge has been built across the river for the purpose of hauling supplies across for the construction of the railroad. The right-of-way has already been cleared for 75 miles beyond Smith.

A tri-weekly passenger service is now in force between Edmonton and Smith, a train leaving every Tuesday, Thursday and Saturday at 9 a.m.

The townsite of Smith has all been cleared and surveyed and the Peace River Land and Development company of Edmonton have been appointed general agents for the railroad company to handle the selling of the property, which will be put on the market in a few weeks. This company have offices in the Moser-Ryder block and its directors are ePter McArthur, of the E. D. & B. C., Andrew Hill and John W. Currie, Edmonton, B. F. Holden, Indian Head, Sask., and W. A. Campbell, M.P.P., Ponoka.

Collides With Street Car.

A slight accident occurred at Jasper avenue and First street at 2.15 yesterday afternoon, when the Royal Mail auto truck struck the front end of street car No. 59 as it was turning the curve on to First street. Little damage resulted.

"HEALTH TALK" WILL BE GIVEN TONIGHT BY DR. E. L. GARNER

The second lecture of the series of "Health Talks" will be given at the Y.M.C.A. tonight by Dr. E. L. Garner. The entire series of lectures is upon the subject of "The Boy—A Living Machine," and the lectures from week to week are directed particularly upon some one important feature. Dr. Garner's talk tonight will be, "The Fuel Food and Food Values." At last week's lecture there were 68 present and it is the wish of the Health league to increase this number each week. The lecture commences at 7.45 and there is no admission fee.

Beverly School Trustees

The election of school trustees for the Beverly school district lying east of the Highlands, took place on Saturday, January 17, and resulted as follows:

For one year: A. H. Jordon, 48; F. W. Howard, 36.

For two years: Walter Manning, 42; Hugh Highman, 31.

For three years: T. R. Dando, 48; John H. Neate, 41.

Mr. Saultmarsh, the returning officer, accordingly declared, Messrs. Jordon, Manning and Dando elected as trustees.

Fancy Dress Concert.

A Mother Goose and fancy dress concert will be given by the children of Elm Park and Calder tomorrow night in the King George theater, Calder.

Low Spirits From Weak Nerves

Low spirits, depression, discouragement, are a form of nervous disease. You worry over little things, and at the slightest ailment apprehend the gravest dangers and diseases. You form the habit of looking at the dark side of things.

Indigestion is a frequent accompaniment and you probably do not sleep or rest well. The cause of the trouble is to be found in the exhausted condition of the nerves. To get well you must build up the feeble, wasted nerve cells by use of such treatment as Dr. Chase's Nerve Food. This great food cure forms new, rich blood, and thereby nourishes the nervous system back to health and vigor. There is nothing like new nerve force to bring back hope and confidence to the weak and discouraged. This treatment works in natural ways to restore health, and, therefore, cannot fail to prove of benefit to you. Put it to the test and you will be surprised with the building up influence that will result.

WM. MACADAMS, EDITOR. W. R. WILSON, MANAGER.

EDMONTON DAILY CAPITAL

OFFICE OF PUBLICATION—DAILY CAPITAL BLDG., 623-625 SECOND ST.

WONDERS ARE WORKED IN OLD AGE.

The young men, of course, are pushing right up in the first line of all the volunteers and drafted in the army of human endeavor and trying to convince themselves and everybody else that the real salvation of the race and the advancement of civilization depend upon giving the youngsters a chance and sending the old guard to the rear. This ambition is commendable, but research shows that there is still splendid work ahead for the older men.

In "The Age of Virility," recently published, the author has estimated the percentage of achievements between certain ages. Men under 40 had contributed lyric poetry, had performed feats in war and excelled in athletics. But in the great work of the world, he announced, the 10 per cent. was performed between the ages of 40 and 50, 20 per cent. between the ages of 50 and 60, 35 per cent. between the ages of 60 and 70, 21 per cent. between the ages of 70 and 80, and 6 per cent. after the age of 80.

There is a physiological and psychological basis for this fact as well as for the fact that in the purely physical work of certain modern industries workers lose their efficiency at an early age. Physical work is directed largely by reflex action and not by conscious cerebration. This machinery wears out. On the other hand, the mental processes are not impaired by use. The man stores facts and experiences in his mind which are useful in forming judgment. History furnishes many concrete illustrations of the remarkable vitality of men over 80 years of age. Among them may be mentioned Wallace, Bigelow, Gladstone, Goethe, Mitchell, Booth, and a host of others.

The chief value of such showing is that it is a relief to hear that the old man can do big things, despite the tendency of the times to believe to the contrary. Such facts will stimulate the middle aged man to a further pursuit of knowledge, not because he will need it necessarily tomorrow, but because it will become a part of his life and will increase his efficiency. In most cases the man who goes backward with age does so because he is not trying to go forward.

FORD'S DRAMATIC VENTURE IN SOCIOLOGY.

Nothing more dramatic in the industrial world has been performed in recent years than the action of Henry Ford when he announced his proposal to share the profits of his Detroit automobile factory, the largest in the world, among his 26,000 employees.

According to the plan, Ford will distribute $10,000,000 during 1914 upon a profit sharing basis, and it is estimated that the lowest wages of any man working in the automobile factory will be not less than $5 a day.

Ford himself is a worker. He has been a machinist and he understands the workers' point of view. In making the division he merely states that there has heretofore not been an equitable division, and he proposes to set that matter more nearly right.

What will be the effect on the automobile trade in general remains to be seen. Certainly the Ford works will have the advantage of being able to command the best class of labor in that particular industry, although this is not the motive of the division. But with this class of labor at his command, it remains to be seen if Ford will not drive many other automobile concerns to the wall by actually producing for less evan at higher wages. There is room for a great deal of prognosticating, and the results will be worth watching.

WHEN CANADA WILL HAVE FREE TRADE.

The conservative solution of the tariff questions has been to permit the beneficiaries of the tariff to write the schedules. The strength of this position and the freedom to perpetuate it lay in the state of mind which caused the public to somehow feel that they were being benefitted by taxation. To cultivate this frame of mind and keep the public steeped in it there has been a constant chorus, keyed up to concert pitch, emphasizing and reiterating the necessity for protecting Canadian labor against the pauper foreigner, of maintaining the Canadian standard of living, of saving the country from the inroads of foreign trust-produced goods, and all such-like speciousness. So long as the public could be counted upon to accept this idea of the tariff as a sort of national life preserver, the conservative solution was safe from disturbance and the beneficiaries were free to continue writing the schedules.

But recently there has been a very decided change in public opinion. It is no longer accepted without question that the labor of the Dominion is benefitted by protection, nor is it admitted that the standard of living is elevated or even maintained by making the necessities of life cost more, while the alleged protection furnished by the tariff against the production of foreign trusts fades somewhat when it is realized that behind the Canadian tariff wall the same trust conditions are being forced in Canada. When this skepticism has become sufficiently general, Canada will have free trade.

THE BUSINESS OF THE HUMANE SOCIETY.

If the society for the prevention of cruelty to animals is to justify its existence, it should without delay proceed against those callous teamsters who bring improperly shod horses onto the galciated pavements, where the poor creatures creep along in an evident agony of fear, struggling to maintain their footing in a manner so painful as to bring a tremor of pity for the animals and indignation toward the driver from every passer-by who gazes thereon.

Spring-like weather with frosty nights has converted the pavements into skating rinks. The horse is not built to negotiate such a surface without properly-caulked shoes. The man who fails to provide his horses with these is a culprit. The business of the humane society is to gather him in.

CHILDREN LOVE SYRUP OF FIGS

It is cruel to force nauseating harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive but gentle. Millions of mothers keep this harmless fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

CORRESPONDENCE

Story of the Unemployed

To the Editor of the Capital: During the last few weeks there has been much uncalled for abuse heaped upon the Unemployed League and the I.W.W. by some of the press of Edmonton.

I will now endeavor to present briefly the other side of the case. That there is an unemployed problem in Edmonton no sensible man will deny. There are hundreds of men in this city who are out of a job and without money through no fault of their own. Most of these men have been induced to come to this part of the country by false representation made by employers of labor and other people who are interested in flooding the country with cheap labor.

Owing to the high cost of living it is impossible for the average unskilled laborer to save enough money during the summer and fall to tide him over the winter. When the freeze up comes a great dea lof work shuts down and a great deal of work shuts down and a shift for themselves as best they can. They find it impossible to secure another job and what little money they have is soon spent for the necessities fo life, and they find themselves out of a job, broke and facing starvation through no fault of their own. What are these men do? Sit down quietly and starve in the midst of plenty? Such a course of action no doubt would appeal to such men as occupy the editorial chairs of some of the Edmonton papers, but it is not in harmony with the first law of nature which is self preservation.

December 22nd, the Unemployed League was formed. It was formed in the I.W.W. hall although only a small percentage of the members of the league are members of the I.W.W. Demands were drawn up and presented to the mayor and city council and parades were held. The demands were that the city furnish work for those who need it at the rate of 30c per hour or if unable to furnish work should furnish meals for those who were suffering from hunger.

Mayor Short, though still in office, shirked the responsibility and refused to take a hand in the matter. However, Mayor-elect McNamara and some members of the city council took the matter in hand and proceeded to deal with the question in an energetic and intelligent manner.

What has been done in establishing the camp at the exhibition grounds is a matter of common knowledge. About 400 men were housed and fed at the exhibition building. They received two meals per day and a place to sleep, in return for which they were working 3½ hours for the city. This was only a temporary arrangement and it was finally agreed between the city council and the unemployed league that the men should work three hours and twenty minutes per day for which they should be paid in cash the sum of $1.00. That the camp at the exhibition grounds should be broken up and the men should board and room where they pleased. It looked as if a solution of the question was in sight which would be satisfactory to all concerned. However there seems to be a certain jealous and disgruntled element in the city who, lacking the intelligence and ability to deal with the unemployed problem, seem to have no other ambition than to cast discredit on the league and those members of the city administration who had demonstrated their ability to meet the situation.

Friday the new agreement was to take effect. The men were expecting to go to work and were awaiting breakfast in the exhibition building. The tables were being laid for breakfast and everything was harmonious. A young man named F. Cook and the cook happened to indulge in a little harmless frolic, both were laughing and not a blow was struck, but Mr. McKittrick stepped up to Cook, placed his hand on his shoulder and ordered a policeman who was standing near to arrest him. Cook was arrested and taken off to jail. The members of the League seeing one of their number arrested, absolutely without cause, refused to go to work and left the grounds, came into town and held a meeting in the I.W.W. hall at which it was decided to refuse to go to work until F. Cook was released. As Cook was arrested without cause it was quite plain that the whole thing was nothing but a deliberate attempt to prejudice the mind of the public against the unemployed league and those members of the city council who were responsible for the camp at the exhibition grounds. F. Cook's case came up for trial this morning and was dismissed. The men of the unemployed league are now ready and willing to go to work under the conditions agreed to and expect to start Monday. This is a true statement of what took place at the exhibition grounds Friday morning, and no doubt will cause considerable surprise to those who read the account in today's papers of the "assault on the cook" and the near riot which took place. It is strange that editors should be so very careless regarding what they print as news. I can only see two explanations. Either they deliberately misrepresent facts or else their methods of gathering news are very far from efficient.

The Edmonton papers have wasted considerable ink lately in howling down the unemployed movement and declaring that a few I.W.W. agitators are responsible for the whole thing. Now how could a few agitators start a movement of the unemployed if there were no unemployed and hungry men in the city? Did these editors ever stop to think that there are similar unemployed movements going on in cities where there are no organizations of the I.W.W.? This morning a newspaper had a frenzied editorial saying the I.W.W. agitators should be shot over the line. All right, gentlemen, go ahead and shoot us over the line, but if you did succeed in getting rid of every I.W.W. man in Edmonton you would still have the unemployed problem with you. It is a ghost that will not down and will have to be met and dealt with and if beaten down and suppressed by brute force it will only break out in a worse form later on.

What is the use of howling down agitation. Agitators do not make conditions, they only show up conditions as they are. If the newspapers would print more about the true conditions of affairs in Canada and thereby head off the stream of emigration which is pouring in from all over the world. (Most of them only to pour out again poorer than when they came in), they would do further towards solving the unemployed problem than they will by indulging in hysterical editorials against the I.W.W., and representing the unemployed to be a lot of drunkards, bums and loafers who want to live in idleness at the expense of the city. The members of the unemployed league, with very few exceptions are a well behaved and orderly lot of men. They don't want to live in idleness at the expense of the city or of any one else. They don't want charity. They simply demand a chance to support themselves by their own exertions. All they ask is a living wage. During the time the men were out at the exhibition grounds there were four cases of drunkenness and there were dealt with by the unemployed themselves and the offenders expelled from the grounds.

As long as the police were kept away from the exhibition grounds there was absolutely no disorder. It is quite plain that the police were brought there Friday morning for the purpose of provoking disorder and starting a riot, but the attempt failed owing to the self-control of the men.

There was no assault committed on the cook and there was no riot and no disorder at the exhibition grounds Friday morning notwithstanding the sensational account published by the newspapers. Since the unemployed league has been organized it has received visits from two preachers who took great pains to express their sympathy with the unemployed and the working class in general.

If these reverend gentlemen are suffering form such an overflow of sympathy, let them show it by their actions in a practical way. Sympathy is not of much use to a hungry man. What he wants is something to eat. Actions speak louder than words and the men who have taken action to relieve the hunger of the unemployed are not preachers and are not connected with churches or moral reform leagues. Saturday night when the unemployed had not had a meal since breakfast Friday morning and had no place to sleep but on the bare floor and benches of the I.W.W. hall, who was it who supplied them with food? Where were the preachers then with their "sympathy"? Both preachers and sympathy were conspicuous by their absence. And their presence was neither needed nor desired. It was then that we found out who the real friends of the working class are. These men were on the job not with sympathy but with food. We judge men by their actions not by their words. Pork and beans and bread and butter cost money. Sympathy can be had without even asking for it.

The workingmen of Edmonton are not likely to forget that it was Mr. McKittrick, a prominent church member, who tried to cause trouble by causing the arrest of an innocent man, so he could discredit the unemployed league and those responsible for the relief measures.

JAMES ROWAN.
Secretary of the LW.W.
Edmonton, Jan. 17.

Child Almost Strangled

You never know what minute a child will develop a bad cold or be seized by croup. For this reason it takes a great deal from off every mother's mind to have at hand Dr. Chase's Syrup of Linseed and Turpentine.

Mrs. E. W. Silver, South Milford, Annapolis County, N.S., writes: "I have used Dr. Chase's Syrup of Linseed and Turpentine for my little boy with most satisfactory results. His throat would fill with phlegm so bad that he could scarcely make a sound, and I thought he would surely strangle. He grew worse, and had frequent bad attacks, so I began using Dr. Chase's Syrup of Linseed and Turpentine. Scarcely half a bottle was used when the strangling ceased. This medicine had a wonderfully soothing effect, and when he had taken two bottles I could not tell that he had any throat trouble. We have also used Dr. Chase's Ointment with equally good results. It is a grand medicine for salt rheum."

There are imitations, but the genuine Dr. Chase's Syrup of Linseed and Turpentine bears the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

Do You Feel Moody, Irritable, Depressed?

When That Languid, Laggy, Easily-Tired Feeling Comes, Your Liver is Slow.

Tells How to Cure Quickly.

"Even when I was young I was not robust and healthy like other girls. I suffered from headaches, and had sort of blue feelings that deprived me of the joyful spirits and pleasures other girls seemed to get. After I married I found I could not throw worries off like other women, and those full feelings of despondency and weariness made me very unhappy. There was no cause to feel so, and my doctor said my liver was sluggish, and this accounted for my poor color, my tiredness, languor and despair. The pills the doctor gave me were too purgative made me weaker because they were too active for my constitution. Dozens of my friends recommended Dr. Hamilton's Pills, and they were ever so mild and helpful. Well, I never used a pill that acted so quietly as Dr. Hamilton's. They were so comfortable to use, I was afraid they might not help. But in a week I knew they had been actively engaged in cleaning up my system. They did the work of a tonic and blood medicine combined. I improved to a marvelous degree with Dr. Hamilton's Pills, and I now maintain the most perfect kind of health by using them just once or twice a week."

It is Mrs. E. V. Erlanger, well known at Gloucester, who relates the above experience. She proved what you and all others, men and women, can prove—that Dr. Hamilton's Pills are best for restoring health and best for keeping the system in perfect running order. Don't be misled into using anything but Dr. Hamilton's Pills 25c a box, five for $1.00 at all druggists and storekeepers or postpaid by the Catarrhozone Co. Buffalo, N.Y., and Kingston, Canada.

TODAY IN DOMINION HISTORY

Life Boats

Hon. Sir William Mulock, statesman and jurist, was born at Bond Head seventy-one years ago today, the son of Dr. Thomas H. Mulock, a physician. After graduating from the University of Toronto he was admitted to the bar in 1868. He entered upon his public career in 1882, when he was first elected to the Canadian parliament. At about the same time he became vice-chancellor of the University of Toronto, and continued to serve his alma mater in that capacity until 1900. As postmaster-general of Canada from 1896 to 1905, he became an international figure, and it was on his motion that the Inter-Imperial Postal Conference adopted penny postage within the empire in 1898. He introduced and carried through the house of commons a bill establishing the department of labor, and became its first minister. He represented the dominion at the inauguration of the federal parliament of the commonwealth of Australia. In 1905 he was elevated to the bench as chief justice of the exchequer division of the high court of justice for the province of Ontario.

Forty-nine years ago today Lord Monck opened the last Canadian parliament prior to confederation. On this date in 1888 Thomas Greenway became premier of Manitoba.

January 19 is the birthday of Alice Eastwood, eminent botanist, at Toronto, 1859. She was the daughter of Colin Skinner and Eliza Jane Eastwood. At an early age she crossed the border and her youth was spent in Denver. Her works on botany are considered authorities on the flora of the Rocky Mountain region and the Pacific coast.

FIRST THINGS

Lifeboats.

The first successful lifeboat was launched 124 years ago today, January 19, 1790, by Henry Greathead, of South Shields, England. The first lifeboat was patented in 1785 by Lionel Lukin, a London coach maker, but a trial of his invention proved that it was not suited to its purpose. A committee in South Shields then offered a reward for a lifeboat that would really be effectual in saving lives, and Henry Greathead, who seems not to have beelled his name, went to work on the problem. In 1789 he completed his model, and, in addition to the local reward, he was granted $6,000 by parliament. His first boat was launched in January, 1790, and on the 26th of that month it first put to sea. Greathead afterward built thirty-one other lifeboats, twenty-three for Great Britain and the remainder for foreign countries, and by 1804 these crafts had been instrumental in saving over 300 lives. In 1824 the National Lifeboat Institution was founded in London to carry on the work commenced by Greathead. The institution's lifeboats saved 124 during the first year of its existence, and in a single year, 1877, it was instrumental in having 1,046 lives.

St. Louis needs $2,000,000 for sewer improvements in 1914.

Bronchitis is the most fatal disease in England, next comes consumption, and then heart disease, pneumonia and scarlatina.

Asthma

Asthma and hay fever, even of long standing and of the most distressing severity, are robbed of their terror by this reliable remedy.

Dr. J. D. Kellogg's Asthma Remedy

TODAY WE CELEBRATE

Pilgrims Observe Theophany Today on Banks of Jordan.

Theophany, one of the great festivals of the Eastern church, will be celebrated today throughout Russia, Greece, the Balkans and in Palestine by thousands of Russian and Balkan pilgrims. Theophany corresponds to our Epiphany, but is observed 13 days later, owing to the difference between the Gregorian and Julian calendars.

The most spectacular celebration will take place in the banks of the Jordon, where thousands of eastern Christians, clad in death shrouds, will re-enact the ceremony of the baptism of Jesus. The site always chosen for the rite is a point on the holy river known, for centuries as Pilgrim's Ford, and alleged to be the exact spot where Jesus received baptism. The great majority of those who take part are Russians, although before the Turco-Balkan war many pilgrims gathered in Palestine from the Balkan States. For these adherents of the faith, Theophany is the closing and most solemn ceremonial of the pilgrimage, which began with the celebration of the Nativity in Bethlehem, in the chapel said to occupy the site of the stable where Jesus was born.

For the Jews and Arabs, the Jordan ceremony is simply an opportunity for money-making, and they take full advantage of it. Booths for the sale of food, and tents to serve as dressing rooms where the pious may exchange their ordinary raiment for death shrouds, are erected by hundreds on the west shore of the Jordan at Pilgrim's Ford, and the owners reap a rich harvest. Turkish troops patrol the river bank to keep order, and beggars of a dozen nationalities seek alms from the pilgrims.

The ceremony is in charge of the Greek Catholic Archbishop of the Jordan. He and his multitude of priests are clad in brilliant robes, and conduct the services from a boat in midstream. The Archbishop reads that part of the Bible having reference to the baptism of Jesus. After prayers the Archbishop dips his cross into the water and blesses the river. This is the signal for the waiting crowds on the shore, and, with shouts and cries of religious fervor, they plunge into the stream. The shrouds worn by the pilgrims are kept for use at their burial, and many of the Russians bring robes for their friends, which they immerse in the sacred water.

Lee's Birthday.

In nearly all of the states of the south the birthday anniversary of General Robert E. Lee will be observed today as a legal holiday. Few people know the great warrior of the Confederacy was born after funeral services had been performed over the supposedly dead baby of his mother. Mrs. Lee was subject to catalepsy, and about a year before the birth of the future general she was declared dead by physicians. She was placed in a coffin, and the funeral services were in progress when muffled cries were heard coming from within the casket. The lid was torn off, and Mrs. Lee was revived. Within a few weeks after her terrible experience she was as well as ever, and her youngest son, Robert Edward, was born within the year.

James Watt, inventor of the steam engine, "who took a tear from the cheek of unpaid labor and turned in into steam, which tireless, turns the countless wheels of toil," was born on this date in 1736.

TODAY'S BIRTHDAY PARTY

Augustine Birrell, Ireland's Chief Secretary, 64 Today

The Right Hon. Augustine Birrell, chief secretary for Ireland, will be the recipient of congratulations today on his sixty-fourth birthday. He was born near Liverpool on Jan. 19, 1850. His father was a Nonconformist minister, and his mother was the daughter of an Edinburgh clergyman, but in the discussions of the home rule question the chief secretary for the Emerald Isle was one of the leaders of the "fighting party" and advocated the imposition of home rule on Ulster by force of arms, if necessary.

Mr. Birrell graduated from Cambridge in 1872, and three years later was called to the bar. He is the author of many books, the first of which, "Obiter Dicta," was published 30 years ago. In 1885 he wrote a "Life of Charlotte Bronte." His "Collected Essays" and "Miscellanys" have been widely read on both sides of the Atlantic. He was also professor of law at University College, London, for several years.

It was a quarter of a century ago that Mr. Birrell began his public career as a member of Parliament. His connection with Irish affairs began in 1907 when he became chief secretary to the Lord Lieutenant of Ireland. He has been twice married, the present Mrs. Birrell having been the widow of Lionel Tennyson, son of Lord Tennyson, the poet. Mr. Birrell has been one of the principal targets of the militant suffragettes. At a meeting meeting in Bristol he was saluted with a dead cat, which struck him on the chest.

* * *

Dr. David Starr Jordan, who recently retired from the presidency of Leland Stanford University after a service of 22 years, was born in Gainesville, N. Y., 63 years ago today. Dr. Jordan has moulded Stanford's policy since the establishment of the university until last October, when Dr. John Casper Branner, one of the oldest members of the faculty, was inaugurated as his successor. Dr. Jordan is now chancellor of the great California institution.

Dr. Jordan recently delivered several lectures in England, and in one of his addresses he declared that American university methods were much superior to those of British universities. The essence of scholarship, he asserted, was to know what to do in life, and the basic idea of American universities was to give men and women the opportunity of making the most of their powers.

The former head of Stanford will hereafter devote much of his time to the world peace propaganda, in which he has long been active. He is also an advocate of the new science of eugenics, and from this viewpoint he criticises war as calculated to work grave injury to the human breed. He has pointed out that during a war a nation breeds from inferior stock. In other words, he said, the men whom war could not use would be the fathers of the next generation.

Buchanan's RED SEAL Scotch

Forty Years A Favorite

IF you try it, you'll always buy it. Red Seal is a mellow, mild and smooth Scotch Whisky, perfectly matured in sherry casks for 10 years, and always bottled at the distillery. So good that it is a "Government Standard" Whisky.

At all Good Dealers, Hotels and Cafes.

They Can't Stop Drinking

"I can stop any time I wish" is a frequent expression, but why don't the drinker make good his boast? Why don't he quit? When a man brags he can stop drinking whenever he wants to he has usually reached the point where he cannot. He knows he cannot make good his boast unaided. The Neal Treatment, which is a harmless vegetable remedy that will transform the terrible cravings for liquor into a positive abhorrence for anything alcoholic in three days without the use of hypodermic injections. If you are drinking you should look into this. If you have a friend who needs help we urge your investigation.

Come in and talk it over or write or telephone for book of information.

ALBERTA'S WEALTH HARD TO ESTIMATE

Dominion Surveyor Paints rosy Picture of Future of Rocky Mountain House.

BRIGHT OIL PROSPECTS

Enormous Amount of Available Water Power on Rivers in Vicinity.

The more one knows and learns about Alberta the more he is convinced that it is truly a land flowing with milk and honey. In the most out-of-the-way places it seems that there are fabulous riches which have not attracted attention at all in keeping with their importance. Such is the manner in which one is impressed by T. D. Green, dominion land surveyor, who has just returned with a party from about half way between Athabasca and Port Cornwall where he has been surveying new townships for the government.

But it is not that part of the province where Mr. Green's biggest interests lie at a spot just about due west of Red Deer where the Clearwater and Saskatchewan rivers meet.

"We in that part of the country," he says, "believe that Rocky Mountain House has a greater future than any other town in Western Canada and we have reason for saying it. It is the juncion of two great rivers, also two transcontinental railways, the C. P. R. and C. N. R., but our greatest reason of all is that it is the meeting point for what may be termed the agricultural part of the province and the timber and mineral areas. Good farming land lies to the east for hundreds of miles, while to the west, besides probable oil and other mineral wealth, we have probably the greatest and richest coal lands in the world, the famous Braztau fields, to which all three of Canada's great railways are building or have built.

"The Canadian Northern had finished its line from Red Deer to Rocky Mountain House and on beyond for 25 miles when I was there three months ago and I expect it is 50 miles beyond before this. They have a magnificent steel bridge over the river at Rocky Mountain House and be sure to make a note of this—the best roadbed on all the C.N.R. system on this branch.

"The C.P.R. is also working on a line which almost parellels the Canadian Northern all the way. Both roads are rushing work on their Rocky Mountain House lines. The C.P.R. have a route surveyed on beyond this point through the Yellowhead pass to their main line in British Columbia, which will cut out the heavy grades on their Kicking Horse line. There is an enormous amount of available waterpower on the rivers there, and the dominion government is considering the feasibility of making the Saskatchewan navigable that far."

Threshermen Organize.

Saskatoon, Jan. 19.—At a meeting on Saturday the Saskatchewan Threshermen's Union was formed, having as its objects the combination of interests of threshing machine operators in the province, the restriction of the sale of threshing machinery, the regulating of wages and of threshing charges.

Noted Journalist Dead.

London, Jan. 19.—Sir John Duncan, the proprietor of the South Wales Daily News, the South Wales Echo and the Cardiff Times, who visited Canada last summer with the party of Welsh newspaper men, died at Penarth Sunday, in his 67th year. He was one of the greatest journalists of the principality, and will be much missed.

Carried Out Threat.

Calgary, Jan. 19.—Coroner Costello will conduct an inquiry into the sensational suicide of young E. W. Wait today. "I will kill myself if I do not get money from home by next Tuesday," Wait is said to have told Dr. O. F. Eastman over the telephone Friday evening. A few minutes later he called at the office of the physician, swallowed the contents of a bottle, fell unconscious, and in 15 minutes was dead. Wait had been in Calgary about four months, and practically all of that time had been out of employment.

Joints Quit Aching, Nerviline Drives Soreness Away

NO MORE STIFFNESS, PAIN OR MISERY IN YOUR BACK OR SIDE OR LIMBS!

Wonderful "Nerviline" is the Remedy.

A marvelous pain reliever.

Not an ordinary liniment—just about five times more powerful, more penetrating, more pain-subduing than any thick, oily or ammonia liniment. Nerviline fairly eats up the pain and stiffness in chronic rheumatic joints, gives quick relief to those throbbing pains, and never burns or even stains the skin.

"Rheumatism kept my joints swollen and sore for ten years. My right knee joint was often too painful to allow me to walk. In this crippled, tortured condition I found Nerviline a blessing. Its warm, soothing action brought relief I had given up hoping for. I rubbed on quantities of Nerviline and improved steadily. I also took Ferrozone at mealtime in order to purify and enrich my blood. I am today well and can recommend my treatment most conscientiously.

(Signed) C. PARKS,
Prince Albert.

Not an ache or pain in the muscles or joints that Nerviline won't cure. It's wonderful for lumbago and sciatica; for neuralgia, stiff neck, earache and toothache. Nerviline is simply a wonder. Best family liniment known and largely used for the past forty years. Sold by dealers everywhere, large family size bottle 50c, small trial size 25c. Refuse a substitute, take only "Nerviline."

THINKS ALBERTA FISH SHOULD BE INCLUDED IN RESTUARANT MENUS

"Why don't they put Alberta white fish on the bill of fare at all the restaurants and hotels in this city?" asks T. D. Green, dominion land surveyor, who has just come down from north of Athabasca after three months surveying government land.

"One of the things that strikes me as being rather curious is the fact that I can't go any place for a meal without being offered what they call British Columbia salmon. Now everybody likes the excellent hard white fish from the northern lakes and rivers better than salmon from British Columbia or any other place, and it's a funny thing that you hardly ever see white fish on the menus right here in Edmonton."

Mr. Green adds that it is no trick to catch white fish, trout and other varieties of fish in the Athabasca river, Lesser Slave lake, Lesser Slave and the other hundred and one lakes and rivers that dot that country. His survey party had the best of fresh fish all the time.

"There's money in that business for somebody," he said. "A man brought down a carload to Athabasca recently and peddled them round for four cents a pound, and you know what they cost here. You know what even B. C. or other salmon costs. That's only one of a dozen ways a man can make a barrel of money by striking out for himself in the north country."

OPPOSITION HAS TWO AMENDMENTS RE NAVY AND COST OF LIVING

Ottawa, Jan. 19.—Much interest is being centered on the address which will be commenced soon after the house of commons resumes its sittings this afternoon. The first speaker will be Mr. H. F. McLeod, the new conservative member for York, N. B. He will be followed by Mr. Lavelle, conservative member for Belle Chasse. It is expected that Sir Wilfrid Laurier will lead off for the opposition, and that he will be followed by Premier Borden. The liberals will have an amendment to move, but it is not known now whether it will be moved by the opposition leader or one of his lieutenants at a later stage in the debate. The probabilities are that Sir Wilfrid will move it. It is possible that there may be two amendments, one relating to Sir Wilfrid's free food policy, the other to the lack of any reference in the speech from the throne to the matter of naval defence. It is understood that Premier Borden in his speech will discuss at some length the reason why the government decided to not again introduce a naval bill at the present session.

EXPLOSION RESULTS IN DEATH OF EIGHT CONSTRUCTION MEN

Ottawa, Ont., Jan. 19.—Eight men were killed and two others seriously injured in a dynamite explision late Saturday on the C.N.R. construction work at Ross Point, Que., opposite Arnprior, Ont. Three of the victims lived in Bristol Mines. They were: Jos. Elliot, aged 22, single, Stephen J. Trudeau, aged 32, wife and three children; Duncan Herron, aged 55, married, no children. The other five were foreigners.

The men were engaged by Brennan and Grant, contractors ,in excavating rock for a bridge pier and had exploded one blast successfully. Another had been put in but a premature explosion caught the gang. Six were killed outright and two died later.

QUEBEC STRIKERS ANGRY AT ACTION OF FRENCH PAPERS

Quebec, Jan .19.—The first sinister incident of the shoemakers strike which has now lasted three weeks took place Saturday when the three French newspapers of Quebec were burnt in effigy at the labor temple, while groups of strikers made demonstration against certain grocery stores where they had been refused credit. The men are angry against the French newspapers because they refused to publish a plea in favor of their cause signed by Father Burke, a catholic priest who is heart and soul with the strikers

MOST OF EMIGRANTS FROM ENGLAND LAST YEAR CAME TO CANADA

London, Jan. 19.—Returns published today show that 388,813 British subjects emigrated from the United Kingdom during the year 1913, 244,663 of which went to other parts of the empire and 104,150 to foreign countries. British North America absorbed the greatest proportion of the colonial emigrants, receiving a total of 190,903, while 56,799 went to Australia, 14,244 to New Zealand and 10,919 to British South Africa. Of the 100,000 lost to the empire the United States secured 94,-600.

HUTTON WILL CASE WILL BE CONCLUDED TOMORROW EVENING

The evidence in the Hutton will case was concluded this morning. There were only two witnesses called, Judge Taylor being asked by E. B. Edwards to identify a number of checks signed by George Hutton in 1905, and Mr. McFayden of the Merchants bank, gave evidence as to certain accounts kept by Hutton. The argument for the plaintiff were then begun by Frank Ford and will continue today and tomorrow, when the case will be concluded.

Asphyxiated By Gas.

Montreal, Jan. 19.—Mrs. George Baker, 35 years old, was found suffocating in her Denormanville street home yesterday, and died before medical aid reached her. Mr. Baker and two children were unconscious from the fumes of gas, but recovered when taken to a hospital. The authorities are investigating a report that a leak in a gas main endangering the lives of other Denormanville street residents.

NOT COMPETITION BUT CO-OPERATION AMONG THE FARMERS

Washington, Jan. 19.—Co-operation among the farmers instead of competition, that the "farmer may receive the whole of the consumer's dollar for his product, instead of 35 to 45 cents, as is now the case," is the aim of a bill introduced Saturday by Senator Borah to create "an agricultural capitall" or clearing house to be run by the farmers under government charter or subsidy. The bill would furnish machinery for scientific marketing and standardization of the farm products, under direction of a country-wide association of producers, irrespective of the government control. It created quite a stir in the senate, Senator Borah explaining later that he had not written the measure, but had introduced it together with a memorial, at the request of E. H. Rettig, a farmer of Opportunity, Washington

McMENOMY COMMITTED IN POLICE COURT ON CHARGE OF PERJURY

The preliminary hearing of A. A. McMenomy was held this morning. There were two charges of perjury and one of keeping a resort for immoral women brought against him. The last charge was remanded until Wednesday. On the perjury charge McMemomy was committed for trial at the next court of competent jurisdiction.

The perjury charge was laid as a result of the preliminary hearing of the cases of Alice Johnson and Fred Giverson, the former being charged by McMenomy of stealing a beaver coat, three diamond rings, a club bag and a toilet set and Giverson was charged with receiving the goods. It was during the hearing of this case that McMenomy is alleged to have perjured himself. Crown Prosecutor Cogswell is conducting the prosecution and Mr. McCaffery is appearing for the girl, Alice Johnston.

IN POLICE COURT

Mah Fan Jang, one of Edmonton's celestial resturant keepers, stated to the court this morning that Ben Davis and three of his companions had entered the restaurant and had their fill, then "beat it."

Lily Depree, charged with street walking parted with $25 in place of going to jail for two months.

Frank Doherty was charged with being a vag.

A Massachusetts man lights his house by electricity from a storage battery in his automobile, which is charged by the motor while he runs the car in daylight hours.

PRIME MOVER IN FIGHT FOR DREYFUS' RELEASE IS DEAD

Amiens, France, Jan. 19.—General Marie-George Picquart, commander of the second French army corps, who was one of the most prominent figures in the Dreyfus trial, died here today aged 60 years.

General Picquard rose to high ranks at a very early age. He was an Alsatian by birth. While serving on the general staff, Picquart discovered the forgeries which had brought about the condemnation on Dreyfus to the horrors of Devil's Island. Picquart thereupon became on the most enthusiastic appellants for a revision of the judgment on Dreyfus. His zeal in this respect led to his arrest and imprisonment on various charges which were dismissed for want of evidence. In spite of the court's decision in his favor he was retired from the service through the influence of anti-Dreyfus officers.

During his retirement Picquart, aided by Emile Zola and others, continued his work in behalf of the man who had been unjustly condemned. He finally succeeded in having the case brought before another court martial at Rennes. Dreyfus was again convicted by this court, but later secured a full pardon from President Loubet.

This pardon did not satisfy Picquart and the other supporters of Dreyfus, who labored steadily to have him officially declared innocent. They finally secured the verdict from the French supreme court and both Dreyfus and Picquart were restored to the active list of the French army.

General Picquart afterward became second army corps.

MURDERER MEETS DEATH SMILINGLY IN ELECTRIC CHAIR

Ossing, N.Y., Jan. 19.—Frank Muehlfeld, alias "The Kid," went smilingly to his death in the electric chair for the murder of Patrick Burns in New York city two years ago. "Big Bill" Lingley, Muehlfeld's pal, was executed on May 5. Both Lingley and Muehlfeld left a statement absolving Ralph Furcolo of any connection with the crime. Furcolo is serving a 20-year sentence.

Burns was robbed and shot down in his saloon on February 11, 1912.

Increase in Permits.

Building permits to the extent of $80,550 have been issued since the first of the month. The total permits issued last week amounted to $27,700 and for previous weeks $52,850.

Shiloh 25c

"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough.

Commander Booth Ill.

Buffalo, N.Y., Jan. 19.—Miss Evangeline Booth, commander of the Salvation Army in the United States, is confined to her room in a local hospital suffering with a serious attack of bronchitis. Doctors attending her say that pneumonia will probably develop, but ltae last night her conditon was much more encouraging.

Ireland Defeats Wales

London, Jan. 19.—Ireland beat Wales two goals to one in the first of the professional international football series played Saturday in Wales.

LATE MARKETS

Winnipeg Grain.

Winnipeg, Man., Jan. 19.—There was a steady and very narrow market today, with little activity in any line and entire absence of news of special shortage. Cables were irregular. Flax advanced one cent from the low point. There is but an indifferent cash demand with little offering.

Receipts—204 cars inspected and 325 in sight.

American receipts: Minneapolis 446 cars, Duluth 39 cars and Chicago 46 cars.

Cables closed: Liverpool ⅛ lower, Paris unchanged to ¼ up, Berlin ⅛ lower, Budapesth ⅝ up and Antwerp ⅝ lower.

Montreal Stocks.

Montreal, Que., Jan. 19.—The market generally was strong and firm this morning, with activity particularly emphasized in C.P.R. and Power. Closing prices were as follows:

Montreal Tramways 20½ to 19.
Winnipeg Power, 197 to 194.
C.P.R., 213¾ to 213.
Iron, 40½ to 40⅛.
Cement, 31 to 30⅞.
Quebec Railway, 14⅝ to ½.

Textile, 82½ to 82⅜.
Toronto Rails 137.

Chicago Wheat.

Chicago, Ills., Jan. 19.—Announcement that no unusually cold weather is indicated at present for any portion of the United tSates had a bearish influence today on wheat. The fact that Argentine wheat can now be imported to this country duty free counted also against the bulls, selling pressure, however, was not heavy. The market opened unchanged to ⅛c lower, and later same gained ground. Oats suffered in sympathy with the weakness of other grains. Buying was only of a scattered sort.

Liverpool Wheat.

Liverpool, Jan. 19.—(Broomhall.)—Wheat opened with speculative support, notwithstanding the large world's shipments, weakness in Buenos Ayres on Saturday and lower American cables. Advices from Australia are of continued firmness among holders with Japan taking liberally of all offers, and light Argentine offers. During the mornnig the market declined on the liberal world's shipments to the United Kingdom and easier spot market.

Buenos Ayres—Wheat on Saturday closed weak, with continued favorable weather for the movement, and lowered foreign bids. Corn lower on favorable weather and crop prospects.

World's shipments: Wheat, 14,624,-000; corn, 3,528,000.

Canadian Stock Quotations.

London, Jan. 19.—Following are the latest quotations of active dominion, provincial and municipal stocks:

Manitoba sterling bonds, 1923, 5 per cent., 102-104; Quebec sterling bonds, 1928, 4 per cent., 95-97; province of Saskatchewan bonds, 4 per cent., 88-90; province of British Columbia, 1941, 3 per cent., 75-77; Newfoundland inscribed, 1945, 3½ per cent., 87-89; province of Quebec inscribed 1917, 3 per cent., 78-80; province of Saskatchewan, registered stock, 1951, 85-87; Edmonton, 1915-48, 5 per cent., 97-100; Montreal, 1933, 3½ per cent., 86-88; Montreal, 1942, 3½ per cent., 83-85; Quebec City, 1923, 4 per cent., 94-96; Toronto, 1929, 3½ per cent., 86-88.

Liverpool Cattle.

Liverpool, Jan. 19.—Frank Devaney & Co., cattle importers, report today that trade for cattle at the Birkenhead market was firm, and Saturday's prices were well maintained.

TOO MANY CHILDREN

are pale and frail—backward in studies—with pinched faces and poor blood—their minds and bodies are actually starved because their regular food does not nourish.

Such children need *Scott's Emulsion* above everything else; it contains nature's rarest life-giving fats; it is essentially food value—blood-food and bone-food, free from wine, alcohol or harmful drug.

***Scott's Emulsion* often builds many times its weight in solid flesh—its medicinal, tonic and nutritive properties make all good food do good.**

IT IS NOT A PROP, BUT A FOUNDATION FOR STURDY GROWTH.

Every Druggist Has It. Avoid Substitutes.

FASHIONS AND FANCIES

THE GAY WORLD.

Miss Burnham of Port Hope who has been visiting Mrs. Nightingale left for Calgary last night.

* * *

Major Eaton of Kingston, is in town and will remain for some weeks during which time he will give a course of military instruction.

* * *

Mrs. Kenneth Macdonald, Fifth street, will receive on Tuesday, January 24th.

Her guest, Mrs. Niblin of Jasper Park, will receive with her.

* * *

Mr. and Mrs. Gustave Cope left on Friday for a trip to the coast. During their absence Mr. and Mrs. Herbert Cope of Calgary will be the guest of Miss Bessie Cope.

* * *

A Squaron 19th Alberta Dragoons will give a dance on Tuesday next, in the Separate school hall, commencing at 8.30 p.m.

* * *

Mr. and Mrs. Samuel J. Gorman left for Ottawa on Monday where on January 20th they will attend the wedding of their neice, Mary Avde, the eldest daughter of M. J. Gorman, K.C., and Mrs. Gorman of Ottawa, to Mr. Ambrose O'Brien, son of Mr. M. J. O'Brien of Renfrew, Ont. After the wedding Mr. and Mrs. Gorman will go to Florida where they expect to spend the winter, returning to Edmonton in April.

* * *

Mrs. Donald Macdonald recently entertained at supper in honor of Miss Burnham of Port Hope and Major Eaten of Kingston. The table was a-bloom with pink carnations and lighted with candles shaded in pink.

The guests were Dr. and Mrs. Duncan Smith, Mrs. Nightingale, Mr. Hudspeth, Mr. and Miss Crosskill, Mr. Beverly, Miss Shibley Robinson and Mr. Cochrane.

* * *

The dansant at he Blue Moon on Saturday was crowded with dancers, and many small parties occupied tables about the rooms which was prettily decorated for the occasion with pink tulips. Turner's orchestra, as usual, played some perfect music.

* * *

Mr. and Mrs. M. J. MacLeod are in Seattle, Wash. guests of the Hotel Savoy. They will leave this week for California.

* * *

Mr. and Mrs. W. J. McNamara entertained Mrs. Nellie McClung and the members of the Edmonton Women's Press club at tea yesterday afternoon after the meeting at which Mrs. McClung addressed the league of the Edmonton Equal franchise.

The lovely house was cosy with big fires in the drawing room and library, and were decorated with quantities of palms, flowers with candles twinkling among them. Tea was served in the drawing room. Mrs. S. McNamara and Mrs. D. J. McNamara assisting. The other guests were Mrs. McClung, Mrs. Murphy, Mrs. Reginald Smith, Mrs. Dickens, Miss McKenny, Miss McLorin, Mrs. Taylor, Mr. and Mrs. George O'Connor, Mr. and Mrs. Broadus, Professor Alexander and Dr. Boyle.

* * *

Mrs. J. Cormac, McKay avenue, was the hostess of a very enjoyable bridge party on Saturday afternoon. The prizes won by Mrs. Hogan was a beautiful little carving of a Japanese lady. The tea table was prettily decorated with pink carnations.

The guests were: Mrs. Brydle, Mrs. F. Blackburn, Mrs. Smith, Mrs. McLean, Mrs. Butterfield, Mrs. Hogan, and Mrs. Morken.

* * *

Dance.

Mr. and Mrs. Sydney Woods were the hosts of a jolly little dance on Saturday evening given in honor of their guests Mrs. Symons and Mrs. Gunn.

* * *

Mrs. Prothero, south side, gave a gay little dance on Thursday evening last week. As a finale to her very enjoyable tea on the same afternoon among those present were: Miss Harrison, Miss Geach, the Misses Wilson, Miss Syre, Mr. Gibson, Mr. Greenwood, Mr. Grant, Dr. McKinnon, Dr. McNally, Mr. Woodman, Mr. Hall and others.

* * *

The address given by Mrs. Nellie McCling to the Edmonton Equal Franchise league yesterday afternoon in the old Presbyterian church, Jasper avenue, was attended by an immense audience all of whom were interested in the subject which Mrs. McClung so cleverly laid before them.

"Men have legislated," she declared, "as best they know how, and we do not blame them for the injustices that have crept in, but we want to help them to reform them."

Mrs. McClung spoke with the courage of her convictions and laid bare laws which are unknown to many who are interested in the subject of suffrage without quite understanding the reasons of such warfare.

At the conclusion of the address Professor Alexander made a few apt remarks, saying that it was gratifying to know that Mrs. McClung had fired the first gun in the Equal Franchise league in Edmonton.

* * *

Postponed

The musicale which was to have been given by the Mistanusk Chapter

Miss Joan Sawyer and Bert McCutcheon in moving picture dancing lessons at Bijou theater today.

of Daughters of the Empire, at the residence of Mrs. T. Atwood Davies, on Wednesday, is indefinitely postponed.

* * *

Bridge

Mrs. Atwood Davies was the hostess on Saturday afternoon of a delightful bridge party.

There were six tables competing for the prizes which were won by Mrs. Mowat and Mrs. Goldwin Kirkpatrick. A most lovely china plate and a crowndarby cup and saucer.

The tea table was perfect with white twill forming a base for an immense silver candlebra with shades pink lights and at the corners, baskets of pink tulips and white narcissi.

Ferns were sprinkled over the tulle in a most artistic arrangement.

Mrs. James Hyndman and Mrs. Harry Evans poured the tea and coffee. Mrs. Jim Taylor served the ices.

The bridge guests were Mrs. Pardee, Mrs. Nightingale, Miss Elmore Taylor, Mrs. Duncan Smith, Mrs. Bower Campbell, Madame Thiandeau, Mrs. Goldwin Kirkpatrick, Mrs. J. J. Anderson, Mrs. S. Arnold Soars, Mrs. Muir Frith, Mrs. Hislop, Mrs. Henwood, Mrs. Dickins, Mrs. McDonald Macdonald, Mrs. Roberts-Allen, Mrs. Mowat, Mrs. Jim Taylor, Mrs. Tod Lane, Miss Burnham, Mrs. Scoble, Mrs. James Smith, Mrs. Julian Garrett, Mrs. Caldron.

The tea guests were Mrs. Hyndman Sr., Mrs. Bethcote, Mrs. Kimp, Mrs. Hume, Madame Cauchon, Mrs. Bowers, Mrs. Norman Soars, Miss Tilly, Miss Cooderham and Miss Anderson.

* * *

Ottawa News

Mrs. Jefferson Chapleau entertained delightfully at the tea hour recently in Ottawa for a number of "not outs," in honor of her daughter, Miss Mary Chapleau.

The dainty teatable was centered with deep pink carnations and tea was poured by Miss Margaret Woods, coffee by Miss Beatrice Anglin and Miss Marion Bowle served the ices.

The guests included Miss Norah McPherson, Miss Jeanne Belcourt, Miss Bessie Murphy, Miss Constance Gorman, Miss Mina Downes, Messrs. Ted Kavanaugh, Eddie Reed, H. Batt, J. R. Beath, John Calling, Tom Blakney, Wilfred Cosy, Lawrence Jackson, Louie Bowie, Graham Abery and Gus Sladen.

* * *

English Composers

"English Composers" was the subject of the concert on Saturday afternoon given by the members of the Womens' Musical club of Edmonton, assisted by Mr. Turner's orchestra. The orchestra was heard to good advantage in the selection from "Merrie England" by German and the same composer's "Torch dance" from the "Henry VIII.s dances, was done full justice to by Miss Teets ,who also played an exceedingly pretty nocturne by Field. Miss Florence McKay charmed her audience by her singing of "Love the Pedlar," and Somerset's "Song of Sleep." Mr. Frith's fine baritone won him hosts of friends in his spirited singing of "King Charles, by Maude V. White. Another vocalist who gave much pleasure was Miss Wall who rendered in careful manner two songs by Sir Edgar Elgar. The club chorus also rendered a pleasing number by the same composer. Others taking part in the afternoon's program were Miss McCleery and Miss J. Tempkins, who played in spirited manner a duet by W. H. Squire entitled "Saltarello" and Mrs. J. Capstick and Mrs. McGregor who sang a pretty duet "O That we Two Were Maying."

DRAWING ROOM MOST BRILLIANT AFFAIR IN OTTAWA'S HISTORY

Ottawa, Jan. 19.—Over 1200 people made their bow to royalty at the annual drawing room which was held in the senate chamber on Saturday night. The Princess Patricia attended with H. R. H. the governor-general. The Dunchess of Connaught, who has cancelled all social engagements for the present, owing to the condition of her health, was not present. The duke was attended by Lord Compton, Col. Farquhar, military secretary and a brilliant staff.

As is the usual custom those who were presented, passed between two rows of soldiers in smart uniforms and were announced by the military secretary. The scene was probably the most brilliant ever witnessed at the capital. After making their bows, the majority of those present made their way to the senate galleries to watch those who had still to go through the ceremony. After the drawing room, the galeties of the evening were continued at the Chateau Laurier, where a large number of fashionable dinner parties were given.

Theatres and Picture Shows

CLEVER PLAYLET HEADLINER OF GOOD BILL AT PANTAGES

"The Priestess of Kama," a playlet intertwined with a story of Hindu legend, and featuring in the principal roles several of the leading society ladies of San Francisco, is slated to have the top-most spot on the new Pantages program which opens today. The play has been sumptuously mounted, and scrupulous care given every detail of the wardrobe which is like the original costumes worn at the time of the great tragedy which is still related in the huts of the worshippers of Buddha in that vast empire, India.

A sketch admirably telling the world an old story of the young girl, enamoured with the glitter of the footlights and the kind old actor who persuades her that passing homage and outbursts of applause do not give half the satisfaction in life that they are reputed to do is "Ambition" presented by the well known vaudevillian and legitimate actor, Edwin Keough.

As a truthful delineation of the actual life story of many who embark on the theatrical sea only to be cast upon some shore alone and deserted, after having been a public idol, the playlet has perhaps no equal in vaudville. The histrionic abilities of Mr. Keough and Miss Nelson are more than ample to give just the right touch of comedy and pathos to the little play and there is every promise that it will be delightful bit of theatrical fare during its stay in the city.

The Spanish Goldinis as jugglers of peculiar and difficult objects are in a class, decidedly out of the ordinary, while E. J. Moore, with a talk-fest, introducing some startling sleight of hand exhibitions will also appear. Pinnologues have proven to be very popular but when they are put on by two entrancing young ladies who can not only play, but will entertain in a pleasing manner with songs and dances, the presentation will be doubly attractive. Weston and Leon, two prepossessing young girls offer a pianologue as above which will add to the bill.

DEMONSTRATION OF MUCH TALKED OF TANGO AT BIJOU

"The greatest novelty since the invention of motion pictures" is the way one commentator remarked upon the motion picture dancing lessons that are shown complete in movies all this week at the Bijou theater. There is shown so almost anyone can easily learn, the pretty and most difficult steps of the much-read-of tango, the turkey-trot is pictured by the clever artists in full detail, and the fascinating steps of this modern dance are also clearly and distinctly shown, and then there is told on the screen the newest Viennese crabe, the hesitation waltz. All that is required to be known by the beginner is projected on the Bijou screen and taught by the master dance artists of New York's society, W. McCutcheon and Miss Joan Sawyer. These instructors are the sensations of the New York theater roof garden and teach the highest society folk of the American metropolis. For each lesson they give they charge $25, and it is not a whit more complete than the lessons given in the pictures at the Bijou.

Each of the three programs throughout the week will show a different series of these dances, and this is in addition to the regular refined and pleasant picture policy of Edmonton's largest and popular photoplay theater.

Special music will be played to accompany each film.

There is no doubt that the dancing films will do much to clear the atmosphere that is thick now with most of the misunderstanding concerning the tango, due to the fact that it has been little seen, and then in all probability seen executed incorrectly. Mr. McCutcheon and Miss Sawyer typify the highest in the art of dancing, and it is safe to say that the interpretation given by them will do a great deal of good in removing the suspicions and baseless charges that have so abundantly and indiscriminately been made against them.

A beautiful Thanhouser story, "The Blight of Wealth," will be one of the other feature films on this same program.

Pathe's Weekly, the acknowledged standard and original motion picture news reeciver of current events throughout the world, will be shown as usual on the Monday and Tuesday program. It should be stated here that the issue of Pathe's Weekly shown at the Bijou every Monday and Tuesday, is seven issues ahead of any other exhibition of it in Edmonton, in other words, the current events pictured on the Bijou screen in Pathe's Weekly, is fresher news by seven weeks than shown elsewhere by this service.

Delicious Chocolate Icing.

This is a crowning delight to a good cake. It is not as hard to make as many housewives think. A tried and proven recipe, simplicity itself, reads as follows: Mix one-quarter cup of Fry's Chocolate Powder with two cups of powdered sugar, adding two tablespoonfuls of cream or boiling water. Try this once, and you'll want to use it often.

Edmonton, Alta.—A delightful secret disclosed of restoring baldness and poor complexion. Quite inexpensive and decidedly harmless. Send $1.00 to S. F. Wilson, 738 Norwood Blvd. Hair sure to return; and all defects as chaps, roughness, freckles, pimples, blotches and blackheads will disappear.

MONARCH'S FEATURE THRILLING FEMALE DETECTIVE STORY

As a sequel to "Chelsea 7750," a metropolitan mystery, the Famous Players Film company supplemented the remarkable success of that unusual subject with the production of "An Hour Before Dawn," another female detective story. Many startling innovations are introduced, including a replica of the machine invented by Signor Ulivli, an Italian engineer, by means of which it is possible to direct and impel a terrific elemental current which scientists claim can shatter battleships thousands of miles away. This invention is now commanding the attention of the scientific world, and its origin forms the nucleus for a striking original plot.

This attraction comes to the Monarch for two days starting Friday and Saturday. As it progresses in the film, the story proceeds as follows:

Prof. Wallace, a scientific authority, strenuously objects to his son Richard's romance with Violet Dane, a chorus girl in the "Red Rose" company. Prof. Wallace tells the girl that unless she abandons every relationship with his son, he will completely disinherit him. That night the servant overhears a heated altercation between father and son, and the next day the professor is found dead with a wound in his side. Kate Kirby, the girl detective, is engaged to trace the crime. All the arts of modern criminal detection and many unique methods are introduced, which prove futile until Miss Kirby finds a carbon sheet the impression on which is a letter from the professor to Violet Dane, asking her to call after the performance, as he wishes to "settle." Blood stains are discovered leading to the observatory, where other disclosures prove the professor was shot. A note book found in the professor's pocked indicates that he had been engaged on an experiment until an hour before dawn, which stamps the time of his death. The son is arrested on the strength of the motive. Following the clue disclosed by the note book, Miss Kirby secures a position in "The Red Rose" company and becomes intimate with Violet in an effort to gain her confidence. The son is subject to a gruelling third degree, and collapses under the ordeal. These facts are graphically told in the evening papers, which Miss Kirby reads in an intensely dramatic manner to Violet in the hope that she will admit her guilt. Later, Miss Kirby overhears her pinying for the fate of Richard so earnestly as to force the conclusion that she is innocent. But Miss Kirby is absolutely mystified when she receives a telegram from police headquarters advising her that Violet has confessed to the murder. Miss Kirby, suspecting Violet's motive, cross-examines the girl, who admits to her confession.

The boy is released in Violet's presence. It is the first time that the two have met since the professor's death, and the pathos of the meeting, tragic in the extreme, is intensified when the boy hears the confession and recoils in horror, renouncing Violet, who, with stoll fortitude, abandons herself to her fate. Miss Kirby re-examines the effects of the dead professor and discovers a note referring to the perfection of a wonderful invention an hour before dawn! A gleam of new, hope enters the mystery. She enlists the interests of her father—a paralyzed detective introduced in "Chelsea 7750"—and they discover that the professor was killed by a terrific explosive force (technically known as infra red ray, the discovery of which has so lately startled the scientific world.) Miss Kirby at once apprises the police and the deadly machine demonstrates the manner of the professor's death.

STRONG MORAL TO "I WILL REPAY" AT EMPRESS THEATRE

"Vengeance is Mine," saith the Scriptures. "I will repay." When Genghis Khan takes it upon himself to revenge himself, the retaliation that he had planned in his fiery moments oftentimes winds as a boomerang and the revenge that he has meted out to others falls on his head. That is the moral pointed out in the sensational Vitagraph feature film, "The Fruits of Vengeance," that is on the program at the beautiful Empress theater for today and Tuesday.

This is the second Vitagraph contribution to the much advertised "Exclusive Service" that is now being shown as a continuous program exclusively at the Empress photoplay theater. As has been before stated in these columns, the "Exclusive Service" films are the finest produced by the stars of the various playing companies of the largest and most successful film manufacturers in the world. They are being exhibited at Edmonton's prettiest picture house for the next period of months as the result of a special contract concluded between the management of this theater and the film manufacturers.

Another of the features that is being shown today is "Big Jim of the Sierras," a very strong western picture that will appeal to lovers of plot and vigorous action. It is a well acted movie, with the environment and background of the Sierras and the life of those regions.

The large pipe organ that is played by an artist of genuine merit, together with the fine appointments of this, the prettiest theater in western Canada, help greatly the keen enjoyment and pleasure of the well-chosen programs at the Empress photoplay theater.

There is nothing like a "Tea Pot" test at your own table to prove its sterling worth!

WILL BAR WOMEN ATHLETES FROM COMPETING IN A.A.U.

New York, Jan. 19.—As a result of the recent agitation to permit enrollment of women athletes in the ranks of the amateur Athletic union a mail vote has been taken on the subject with the result that the union has decided by an overwhelming vote to refuse registration to women in all sports and competitions controlled by the A. A. U. This effectually bars women from competing or giving athletic exhibitions in opening games or meets where men or boys are entered to appear in any part of the program. It is recorded that notwithstanding the rule prohibiting such mixed competitions one association of the A. A. U. permitted the union laws to be violated.

Of all those voting only one vote was cast against the resolution. Another voted in favor of the resolution, but requested that they be registered in a group by themselves.

EARL'S DAUGHTER LOOPED THE LOOP WITH AIR AVIATOR

London, Jan. 19.—Lady Victoria Perry, the daughter of the Earl of Limerick, looped the loop in an aeroplane at Hendon Saturday afternoon with an aviator named Hamel, and expressed herself as being delighted with her experience.

Barred in Paris.

Paris, Jan. 19.—The edict of Cardinal Amette, archbishop of Paris, forbidding the dancing of the tango as a sin that must be confessed, and for which penance must be done, is causing a storm against the tango and immodest dress throughout the provinces. The bishop of eight dioceses have put the ban on the tongo within a few days.

Some 12,318,000 telephones are in use in the world.

IMPORTANT HOCKEY GAME TUESDAY NIGHT WHEN VARSITY PLAY PENNANTS

M'DOUGALLS BEAT LAW STUDENTS BY CLOSE SCORE 21-20

Nip-and Tuck Game All the Way and Fairly Fast—Opportunities Missed

INDIFFERENT PLAYING BY LAW STUDENTS LOST GAME

Too Much Fumbling and Batting of Ball—Players Need Practice Shooting

The McDougalls and the Law Students played a nip-and-tuck basketball game Saturday night at the Y.M.C.A. in the senior league. The Law Students were within reaching distance of victory on several occasions, and only for the very indifferent playing of Menzies in the second half, and the most careless sort of play by other players of the team, might easily have come away with a win to their credit over the sturdy McDougall team.

Erratic passing, fumbling and batting the ball, and punk shooting, lost them the game. The Students let the ball slip through their fingers dozens of times, with the result that the pass was missed and the opportunity for a shot was lost. On the other hand, the McDougalls played a pretty steady game throughout and occassionally pulled off some nice combinations that resulted in scores, but they too, were somewhat out in their shooting.

First Half.

Tait secured the first basket after about three minutes of play. Jackson followed with another in half a minute on a pass from Tompkins. McKnight made a free throw when Menzies was called for holding. Menzies then made the first point for the Law Students by the free throw route. Cassleman secured a basket after several passes, and McKnight followed with one for the McDougalls. Menzies then dropped one in and followed with a free throw. Van Allen put the Students ahead when he scored an easy one right under the basket, but Tait came to the rescue by flipping a nice one in for the McDougalls. McKnight followed with an easy one on a short pass from the end. Half time score 11-8 for McDougalls.

Second Half.

Logan netted nice basket from out in front and Tompkins shot a difficult one with one hand, when being checked, and gently tipped another one in from under the basket. Wilson made a good one on a pass from Van Allen and Logan followed with another for the Students when Wilson let the ball slip between his feet. Van Allen then put the Students again in the lead, but McKnight came right back with one for the McDougalls. Tait added still another when Logan left him uncovered and McKnight made one for the McDougalls after they had missed several shots. Menzies made a free throw and followed with a basket on a long one hand shot from side. Final score 21-20 for the McDougalls.

The teams lined up as follows:

McDougalls.	Position.	Law Students
Tompkins	centre	Van Allen
McKnight	forward	Menzies
Tait	forward	Wilson
Jackson	guard	Cassleman
Ross	guard	Logan

Referee, Pattison.

Basketball Tomorrow.

The Old Timers and Alberta college will play a scheduled senior basketball game tomorrow night at the college gymnasium. This game should be easy for the Old Timers, as the McDougalls took a fall out of the Teologs quite easily the other night. Of course the Theologs will have the advantage of playing on their own floor, but even this should not interfere with a victory for the Old Timers.

Saturday Hockey Results.

Canadiens 9, Ontarios 3.
Torontos 9, Quebec 4.
Ottawa 7, Wanderers 1.
Cleveland 2, Midland 1.

REGINA BONSPIEL CLOSED SATURDAY; ROSS BIG WINNER

Regina, Sask., Jan. 19.—The bonspiel was concluded on Saturday night, Ross of Regina won the grand aggregate, Drewry cup, Calgary cup, and was second in the Tooke and Anderson and Lunney. Williams of Morse won three seconds and a fourth. Blackburn of Winnipeg won two thirds.

New Pacing Record

Minneapolis, Minn., Jan. 19.—The world's pacing record on ice was broken here Saturday when Geo. Gano owned by Wm. Savage, paced a half mile in 1 minute 1 1-2 seconds. The fastest previous time was made by Marion Patch here in 1912 when she paced a half mile in 1:02.

GREAT GAME WILL BE STAGED WEDNESDAY NIGHT ARENA RINK

Eskimos and Dominions Will Battle for League Leadership—Important Game of the Season.

TEAMS EVENLY MATCHED HARD TO PICK WINNER

Winning Team May Be Expected to Capture Championship—Chinooks Also in Running.

With three teams now tied for first place in the intercity hockey league, a great amount of interest is being manifest. Eskimos, Dominions and Chinooks each have two wins and one loss to their credit. The Chinooks and Centrals meet this week in Calgary, and no doubt the Chinooks will win. Dominions and Eskimos play Wednesday night at the Arena and the winner will be tied with the Chinooks, provided the Chinooks win. The Eskimos have yet to play two games in Calgary and the Dominions have to meet both the Chinooks and Centrals up here, so if the Dominions win over the Eskimos Wednesday night, they should have no trouble in taking the two remaining games from Calgary up here. While if the Eskimos win Wednesday night, they may have a more difficult task in taking two games from the Calgary teams on their own ice. So far as the Calgary Centrals are concerned, they are entirely out of the running.

So it may readily be understood why so great an amount of local interest is being shown in the game here Wednesday night. The winner of the great contest may be expected to capture the championship. It is quite within reason to believe that Wednesday night's game will be one of the very best ever seen in Edmonton.

The ice should be in great shape, and both the local teams are more at home on hard ice. The Eskimos have developed effective combination play to a wonderful degree and although the local fans have not seen the Dominions in action for a couple of weeks, they may be expected to put up the game of their lives. The advance sale of tickets began last week with a rush and there is no doubt but that a record crowd will witness the big game.

ROYAL "MOUNTED" BEAT "PEN" GUARDS IN A CLOSE GAME

The R.N.W.M.P. hockey team played a return game with the Penitentiary Guards at their rink last Saturday and defeated them by a score of 3-2.

The game was closely contested, there being little to choose between the teams. Both sides lacked combination work and appeared to rely mostly on individual rushes. The half-time score was 2-1 in favor of the R.N.W.M.P.

The second half proved very exciting, each team working at top speed and considerable excitement prevailed among the many spectators. Each side added another goal to their credit and when the bell went for full time the score stood 3-2 in favor of the R.N.W.M.P.

The game was clean, only one penalty being handed out by the referee. This was to Millar of the R.N.W.M.P., who was given five minutes for upsetting Conway, the Penitentiary center man.

Line Up.

R.N.W.M.P.	Goal	Penitentiary
Ct. Bottomley	Guard	Bone
	Point	
Sgt. Millar	Guard	Higginson
	Rover	
Sgt. Willett	Deputy	Cummings
	Centre	
Cst. Cuthbert	Guard	Conway
	Right Wing	
Sgt. Davies	Guard	C. A. Smith
	Left Wing	
Cst. Ross	Guard	Martin

Goal Summary.

1st half—
R.N.W.M.P., Willett.
Penitentiary, Conway.
R.N.W.M.P., Cuthbert.
2nd half—
R.N.W.M.P., Davies.
Penitentiary, Conway.

Sergt. Waterton of the Edmonton city police is getting a hockey team together, composed of members of the Edmonton city police force. This team will meet both the R.N.W.M.P. and Penitentiary teams at some future date.

PENNANTS PLAY VARSITY TOMORROW

Varsity Must Win to Tie for First Place—Pennants Have Not Been Beaten.

INTERMEDIATE GAME ALSO

Game Will Be at South-side Rink at Eight O'Clock—Great Game May Be Expected.

Tomorrow night will see the most important game in the Northern Provincial league, when the Pennants hook up with Varsity. The fate of the Varsity seven all depends upon the result of this game, as a win will tie them with the league leaders, while if they lose they will practically be out of the running altogether, therefore they may be expected to put up the game of their lives. Dean will again be on the line-up in an endeavor to help snatch victory from their speedy rivals.

The Pennants have a mighty strong team and have gone thus far without a loss, and it is their greatest ambition to continue right through the season with the same good fortune. All the games they have won have been by close scores, and tomorrow night's contest will be no exception. Neither team will have a walk-away. The game will be held at the south side rink and will begin at eight o'clock. There will also be an intermediate match after the senior game, the same two clubs being represented. The Pennant intermediates have lost but one game so far, and that to the Strathconas, in the opening game of the season. They are a much stronger team now, however, and are right out after the Alberta intermediate championship. The line-up for the senior game tomorrow night will be:

Pennants	Position	Varsity
Wilson	Goal	Chubb
C. Steel	Point	Lobston
C. Russell	Cover	Riley
J. Steel	Rover	Dean
Ross	Centre	Wilson
Donuhue	right wing	Deitz
Carmichael	left wing	Beescroft

Capital Curling

Saturday night's results:
McLeod 12, Hunt 6.
Robertson 13, Hall 8.
McKenzie 11, Morris 10.

News of the Markets

Winnipeg Grain

Winnipeg, Man., Jan. 19.—Wheat markets were weak on lower Liverpool cables, heavy world shipments and reports of snow in the United States wheat belt. Advices from Australia were ,however, of a more bullish character. The cash demand for all grades of wheat was quiet and few offerings. xport inquiry was quiet and local millers were less keen buyers. Winnipeg opened 3-8c lower and closed 1-2 to 5-8 lower. Minneapolis opened 3-8c lower and closed 1-2 to 5-8 lower.

Chicago opened 1-4 to 1-2 lower and closed 1-4 to 3-5c decline.

Winnipeg cash wheat closed 3-4 lower for contract grades. Cash oats uncaanged to 3-8 lower. Cash barley unchanged and cash flax 1 1-2 lower for all grades. Inspections Friday totalled 221 cars against 595 last year and in sight were 200 cars. Grain inspection: Spring wheat—1 Nor. 57; 2 Nor. 58; 3 Nor. 10; No. 4, 2; rejected No. 2, 9; no grade 2; rejected 3; condemned No. 5, 2.

Oats—1 C.W. 1; 2 C.W. 10; 3 C.W. 14; extra 1 feed, 4; 1 feed 1; 2 feed 4; rejected 2; no grade 1; mixed 1.

Barley—3 extra 4; No. 3, 9; No. 4, 6; rejected 2.

Flax—1 N.W. Man. 18.

Totals—Wheat 147; oats 36; barley 19; flax sed 18; rye 1. Total 221.

Montreal Produce

Montreal, Jan. 19.—Receipts of butter and cheese were light but eggs came in more plentiful with prices firm and demand fair on all three.

Cheese—Finest westerns 13 7-8 to 14; finest easterns 13 1-4 to 13 3-4

Butter—Choice creamery 28 1-2 to 29; seconds 26 1-3 to 27.

Eggs—Fresh 42 at 43; selected 38; 1 stock 38; 2 stock 26.

Port—Heavy short mess barrels, 35 to 45 pieces, 30; short cut back barrels 45 and 55 pieces 29.

Montreal Stocks

Montreal, Jan. 19.—Montreal stocks closed the week with a firm tone, the general level of the prices at the end of the two hour session Saturday being practically the highest of the week. Business was fairly active for Saturday and while few important advances were scored the general tendency was slightly upyard. Strength of the C. P. R. both in London and New York was an important influence on sentiment.

The tramway group continued to hold the centre of the stage. On purchases of 35 shares, tramways common sold at 205 as compared with 198 in last sale Friday. Bid prices jumped from 200 Friday to 215 Saturday with no stock offering under 225. Earlier in the week it sold at 192 comulative dividend, so at the closing bid of 215 ex-dividend on Saturday there was the equivalent of a 25 1-2 point rise. As the issue is a small one $5,000,000 and the great majority of the 3,000 shares have been exchanged into the holding company security, tramways and Power, the floating supply is smal and the stock responds easily to any demand.

In the listed market chief activity were in C. P. R. which rose to a high for the movement of 212 and closed 211 3-4. Power gained 1-8 to 217 2-8; Brazilian was unchanged at 82 1-2 and cement at 31 1-2.

Toronto Stocks

Toronto, Jan. 19—C. P. R. rights furnished most busines on this exchange Saturday, 466 changing hands at prices in the neighbborhood of 4 5-16. There was no particular outstanding feature in the trading. The undertone was firm and prices on the whole remained steady. There is a rumor afloat again that the dividend on Twin City is to be advanced. Directors of the Mexico Tramways company announce the suspension of the dividends on the commonstock until peace is restored in Mexico and the exchange is not so heavily against Mexico. The announcement is couched in the same language was the Mexican Power announcement .

New York Stocks

New York, Jan. 19.—The level of prices were barely disturbed in Saturday's trading in stocks. The market showed none of the vigor of the early part of the week . At the outset the bears attacked the list, but they had made little headway. Reading was forced down a point, but elsewhere recessions were slight, although for a time there was heavy selling of the favorite stocks. Lack of success caused the shorts to retreat, and a partial recovery was effected. The movement thereafter was unusually narrow, with a downward tendency.

Canadian Pacific was strong all through the sesion, being the only important stock to oppose the general which were marked up vigor movement. Low priced shares which were marked up vigorously yesterday.

Announcement that the Minneapolis and St. Louis had arranged for extension of the bulk of its $3,000,000 notes maturing February 2, was followed by an advance thre points in the road's 4 per cent. bonds. The general bond market showed an improving tendency. Total sales, par value , $1,562,000.

U. S. two's advanced 3-8 and Panama three's 1-2 on call on the week.

Chicago Wheat

Chicago, Jan. 19.—Forecasts of a big yield in the winter crop belt had considerable to do Saturday with pulling down the price of wheat. The market closed easily 1-8 to 1-4 to 3-8 under last night. Other speculative articles showed a net gain. Oats 1-8 to 1-4.

Flattering predictions in regard to the winter crop were based on the enlarged acreage ,the forward state of growth and the fact that the year immediately after a dry season has usually produced much more than the average number of bushels. According to a well known expert the acreage sown at present exceeds last year's total by 4,119,000 acres and owing to the mildness of the winter, the demand to date has been so slight as to be worthy of notice .

More generous receipts at primary terminals both northwest and southwest gave the wheat bears a further advantage. There were also prospects of large world's shipments and it was not overlooked that the Canadian parliament has yet to act on the question of declaring wheat duty free. The declining tendency ofthe market, however, was checked by a notable improvement in the domestic call for cash wheat to go to interior mills.

Oats hardened with corn but were also influenced to some extent by reports of a growing demand from the south .

Chicago Cattle

Chicago, Jan. 19.—Cattle receipts 200; market steady; beeves 6.75 to 9.50; Texas steers 6.90 to 8.10; stockers and feeders 5.10 to 7.80; cows and heifers 3.50 to 8.50; calves 7.50 to 11.50.

Hogs—Receipts 15,000 market strong and 5 to 10 cents higher.

Toronto Stock Sales.

Toronto, Jan. 19.—The following were Saturday's stock sales:

Barcelona, 429 shares at 25 to 26 3-4.
Brazilian 305 at 82 to 82 1-2.
Commerce 171 at 200 1-2 to 201.
Toronto rails, 135 at 137 1-4 to 137.
Reserve 500 at 1725.
Cement 150 at 31 1-2 to 31 5-8.
C.P.R. rights, 466 at 4 51-6 to 4 1-4.
Nipissing, 85 at 780 to 790.
C. P. R. 50 at 212.
Unlisted:
Coldfields, 8,600 at 6 1-2 to 6 1-4.
Kerr Lake 200 at 470 to 475.

London Stock Market.

London, Jan. 19.—The stock markets aSturday were confident and vigorous despite the week-end influences. Investment was heavy and speculation is widening, insiders are adding to their stocks of shares anticipating a continuance of the revival.

Good judges of the market expect a further advance tomorrow on the execution of orders accumulated over the week-end but hope for a temporary check thereafter, fearing that otherwise the markets may become topheavy. Good factors are potently paramount including slack money, poor trade, the clearance of the South African situation, and better buying powers.

The buyers factors are not, howeevr, entirely eliminated. In the background there is the impending re-opening of the British parliament when the Ulster crisis will soon crystalize; Turkey is again dangerously intriguing with Albania, threatening the concord of the great powers; the rush of new issues now suspended will be resumed when the underwriters have got rid of their present loans; and the weakness of the French exchange keeps alive the probability of Paris taking gold from here in the early future.

Consols again advanced, closing at 73 1-16. The new scrips were buoyant. Many of the Canadian giltedged securities are a point up on the week. The bulls in Canadian Pacific are more hopeful and the closing quotation was 217 1-4. Grand Trunks were a fraction better despite the loss in traffic receipts, and shares were slow, but many of the Canadian industrial and utilities showed gains of 1-2 to 1 on the week. American rails hesitated, there being some doubt as to the immediate effect of the currency reform legislation, despite confidence in the ultimate results.

The lists for the $5,000,000 loan for Victoria, Australia, will close on Wednesday and the result is looked forward to with interest, as being liable to show whether there has been any change in the attitutde of the investors toward new issues.

Nelson Ore Receipts.

Nelson, B. C., Jan. 19.—Ore receipts at Consilidated Mining and Smelting company's plant last week weer 8,245 tons, making a total for the year to date of 15,778 tons.

Dated this 14th day of January.

J. J. CREIGHTON CO., Bailiff.

ELOQUENT HUES OF FEMALE GARB WILL DAZZLE MAN

Startling Color Schemes in Plaids and Stripes Decreed.

TOP-SHAPED SKIRT REACHES TO GROUND

Gloves, Hats, Shoes and Hose to Riot in Company With Effects.

By Mere Man

Turkish architecture, with a mixture of Chinese and Indian colors, will make the American woman noticeable when she goes out in her new spring cloak and gown.

Nothing quite so startling has been conceived in color schemes as those which will control in the fashion of woman's dress for the coming season if the early samples in the suit and cloak stores are to prevail.

The minaret skirt, top shaped, with its overlaying flounces about the thighs, its long slightly curving lines downward to the decrease in circumference at the bottom, has its length lines accentuated by a short cloak made of soft wool, or silk and wool material of highly colored stripes and of plaids, in shape following an abbreviated cutaway coat of the man fashion of a few years ago.

Color Problem Solved.

Those who have complained of the lack of color in street attire among Americans will have the opportunity to sing peans of joy when the spring fashions of 1914 appear. It has been the wonder of students of color how the Navajos and other Indians made ultra blue sit down in peace and harmony with ultra red, and how a Sioux brave was able to combine strong yellows in his head dress with violets and pinks.

The Paris dressmaker has solved the problem. He has found the secret of mixing apparently antagonistic colors in such combination that they not only do not quarrel, but develop a certain affinity for each other and snuggle up in pretty unison in trim cloaks and fluffy, shadow lace waists.

For the last season or two the effort of the fashion maker was bent on cutting and fitting and slashing delicately woven materials into such shapes and forms as would reveal as much of the natural form underneath as possible and still keep the wearer from ridicule or "within the law." The success of this venture has made the work of the caricaturist rather an easy task and furnished the reformer with a never-to-be-exhausted text for his homilies on virtue and modesty.

Effect Like Gunnysack.

The men who make the fashions in Paris seem also to have a sense of humor and to have ceased taking themselves seriously, for the mere purpose of getting the laugh on their critics. This year's fashions in woman's gowns, and especially in street suits, will have the same effect on the figure that a gunnysack with a hole cut through wherein to thrust the head, has on the aborigine of the South seas who gets her first ambition to wear clothes.

Not that any analogy exists between the materials which go to make a gunnysack and those which go into the divine creations which the women are to wear this season. They differ as a Keats sonnet differs from an I. W. W. harangue. The one is delicately artistic, perfect in all its lines, harmonious in color, graceful in form and, like the motion of the poem, has a meaning all its own. The other is, of course, just crude savagery.

But in either case the effect is for concealment. The prude will find no text in the spring fashions. The skirt is full and falls quite to the ground. It swells gradually as the lines rise until it stands out round and full just below the waist line, when it is quickly drawn in. But over this narrowing falls the short coat, with its tails. The sleeves of both waist and outer coat are full and have many trimmings of knotted braids to which are hung tassels. The collar extends almost to the bottom of the coat, and there is generally a wide band about the coat waist with buttons to fasten in before.

The waist of the minaret skirt is fluffy, with innumerable layings of shadow lace, and pretty trimming of materials which are Greek to anyone but a connoisseur in such matters.

All adverse criticism will have to be leveled at the colors. They are there in every combination known to nature. A sugar maple, after the first black frost, shows no more flaming combinations than the woman's spring coat of 1914. It fairly oozes color. Sometimes it is laid off in large squares like a Scotch plaid, sometimes the colors run together with abrupt borders, and sometimes the rainbow scheme is used with additions.

The colors in dress have made corresponding articles of wearing apparel necessary, and gloves and hats and shoes and hose will be as vivid and varied and eloquent as the dress and outer garments.

When asked what the men were going to wear, the representative of the New York house who had shown his samples for the education and information of the reporter said that was out of his province. If colors are to add to the cost of material, however, it seems quite certain that what a man wears will dwindle to the single garment, unless there is an increase in incomes to correspond with the increase of color.

Discuss Town Planning.

Ottawa, Ont., Jan. 19.—The fifth annual meeting of the commission of conservation will open here on Tuesday next. A special feature of the meeting will be hte subject of town planning, which will be presented in the form of an interior report by Col. J. H. Burnham, of Montreal, chairman of the committee which has the matter in hand.

AMERICAN'S SPEECH CAUSES SENSATION AT LONDON BANQUET

London, Jan. 19.—A tremendous sensation was caused in the American luncheon club last week when Senator James Hamilton Lewis, of Illinois, the club's guest of honor, criticized Great Britain by saying:

"How can there be peace with a nation that is inciting our neighbors to war on our borders?"

Thos. J. McNamara, parliamentary secretary of the British admiralty, had expressed to the one hundred American present the customary sentiment, hoping that the United States and England would ever be bound by the ties of peace and Senator Lewis' speech followed. The Illinois senator continued:

President Wilson's policy is peace with honor, but honor first, and there must be honor even without peace."

American congratulated the flame-whiskered senator, one shaking his hand and saying.

"Senator, your speech will be an inspiration to all Americans."

Senator Lewis implicitly believes that Sir Lionel Carden's removal is iminent. He says the foreign office here thinks that America's conviction is that Carden's antagonism is based on ignorance; but even so, it would rather remove him than lose the friendship of the United States."

Austrian Dreadnought Launched.

Fiume, Austria, Jan. 19.—The fifth fourth Dreadnought was launched here last week and christened the Szont Istvan by the Archduchess Marie Theresa, representing the Emperior Francis Joseph.

WOMEN COMMIT MOST CRIMES IN APRIL AND NOVEMBER

St. Louis, Jan. 19.—The romantic month of April and the melancholy days of November are preferred by women as the periods in which to commit felonies, according to records of arrests during 1913 which were compiled yesterday by Charles Atmore, statistician of the Police Department. In April 121 women were arrested for alleged violations of State statutes ,and in November the number of arrests was 122—these exceeding the records of any other two months .

The favorite months with men for criminal operations were shown to have been January and October, the number of arrests for State offenses during these periods having been 1106 and 1181 respectively.

There were more than six times as many men as women arrested for all offenses during the year, the male tally being 33,730, and the female 5224. The total for both sexes was 38,954.

Women to the number of 1230, as against 11,467 men, were arrested on felonious charges. For police court offenses the number of women arrested was 3994, as against 22,263 for the men. Under the classification of misdemeanors August, in the season of "dog days," was the most fatal for both men and women, 2036 men and 499 women having fallen into the net of the law during the month.

No statistics were as yet available on the number of convictions resulting from the total of 38,954 arrests, which averaged 106 for every day and four every hour of the year.

EDMONTON VIEWS ON DISPLAY IN PASADENA HOTEL

Room is Filled With All Kinds of Views and Literature of Canada.

WESTERN PROVINCES GET THE PREFERENCE

Panoramic View of the Capital of Alberta is Seen on the Walls.

A new departure in advertising the merits of the possibilities of the Canadian west has recently been adopted by one of the leading hotels in Pasadena. In order that its guests and the general public may keep in daily touch with affairs in Western Canada, the Hotel Green has instituted what is to be known as the Canadian Room in the Arcade of the east building where all literature pertaining to Canada including newspapers from each province will be furnished to the patrons. The hotel has several hundred Canadian guests each season and receives so many inquiries from Canadian visitors that as a matter of general convenience, it has been decided to establish the room.

Maps of Province

The walls are hung with views of Canada and particularly the western provinces. One large map gives a view of the provinces of Saskatchewan and Alberta superimposed on nine of the prairie states showing the relative size of the provinces. The city of Edmonton through the office of the industrial commissioner has taken advantage of this room and on the walls will be found a copy of the most recent panoramic view of the city of Edmonton. All of the literature issued by this department comprising circulars, pamphlets, etc., has also been forwarded in large quantities for the information of those who may be looking toward this province with a view to investing or locating here.

Another feature of this new scheme is that the room will be in charge of a person who is familiar with the western provinces and will therefore be in a position to talk intelligently to those who may be seeking for the right kind of information as to the nature of the soil the climate and other important features which interest those living in the south.

Arrive From Grand Prairie

Rev. Mr. and Mrs. Forbes, and Miss Baird, arrive in the city tomorrow afternoon from the Grand Prairie country where they have been stationed for some time past.

HAS OPENED FINE BARBERS' EMPORIUM IN ALBERTA HOTEL

That popular tonsorial emporium formerly located in the basement of the Alberta hotel has been moved upstairs to the first floor, the address being 407 Jasper east. "Billy" Allen, the popular manager, who has made so many friends among those who visit his shop for their periodical hair-cut, massage, shave or other facial requirements, has installed one of the nicest places of its size in the city. There are four chairs, and baths in connection, and the whole establishment is fitted with the most scientific and up-to-date appliances. Mr. Allen came to Edmonton from Stettler 18 months ago. His shop will be much more easily reached hereafter, there being an entrance from both the hotel corridor and street.

CALDER LIKELY BE TAKEN INTO CITY

Delegation Waits on Mayor With Request—Their Demands Seem Reasonable

ELECTRIC LIGHT SERVICE

Chief Engineer of E. D. and B. C. Wants Extension to Company's Yards

Acting on instructions from J. D. McArthur, the chief engineer of the E. D. & B. C. railway has written to Mayor McNamara in regard to the extension of the electric light service to the yards of the company. In the communication it is stated that the company intends to build a large number of small houses for the employes.

The mayor recommended to the commissioners this morning that this is a matter which should be given careful attention as Mr. McArthur is a man who will do a great deal for the city within the next few years, and should therefore receive some action in this regard if possible.

This question brought up the proposition of taking Calder into the city. The mayor stated that a delegation from Calder had already waited on him with a request that this subdivision be taken into the city. All they ask now is electric light and telephone service and the other utilities when the city can complete the programa.

Both matters have been referred to Commissioner Chalmers and Mayor McNamara who will take the subject up with the superintendents of the utilities and bring in a report later to the board when it will be sent up to the council for approval or rejection. The residents of Calder are preparing a formal request that they be taken into the city. This request has not yet reached the office of the commissioners, but as soon as it does it will be considered in accordance with the above suggestions of the board as decided this morning.

THE WEATHER.

Forecast—Northerly winds, decidedly colder during today and Tuesday; light local snowfalls.

Bulletin—Snow has fallen in Alberta, where it has been cold, especially in northern parts. In Saskatchewan it has been quite mild during the day, but cold at night, while in Manitoba it has been quite mild and raining slightly in eastern portions.

Senator Cox Laid to Rest

Toronto, Jan. 19.—At 11 o'clock this morning a long cortege moved from the late Senator Cox's house and wound its way up to Mount Pleasant cemetery, where in the dignified family mausoleum, the remains of Hon. George A. Cox, were laid to rest. There were over one hundred conveyances in them, leading men of the financial and industrial world followed the dead leader. Bank managers, great theologians and newspaper owners were present.

PEACE RIVER IS BEING OPENED UP AT RECORD PACE

J. D. McArthur Says A. and G. W. Will Be Past Lac la Biche by Fall

COMPANY LET 150 MILE CONTRACT ON SATURDAY

E. D. and B. C. Being Rushed —Many Huge Bridges Will Be Built.

J. D. McArthur, president of the J. D. McArthur company, was in the city Saturday. The company is building the Edmonton, Dunvegan and B. C. railway from Edmonton via Sawridge, and along the south side of Lesser Slave Lake and the Peace river to the western boundary of the province; the Central Canada railway, which branches off from the E. D. & B. C. a little west of Grouard and goes to Peace River Crossing, thence along the north bank of the Peace to a junction with the E. D. & B. C. at Dunvegan; the Alberta and Great Waterways railway, from Edmonton north and northeast to Fort McMurray, and the Hudson Bay railway, from Le Pas, Manitoba to Port Nelson, on Hudson's Bay.

He was seen at the Edmonton hotel by a Capital representative and although he had let the contract for 150 miles of Alberta and Great Waterways a few minutes before and expected to be busy with callers of the sort or another till past midnight, he was glad to tell the people of Edmonton and the north through the Capital anything and everything he possibly could about the development in railway building that he is carrying on in such an energetic manner—work that is opening up the last great territory of an considerable size that is waiting for hands of steel and other facilities of civilization in the known world

Large Contract Let

Among the statements he made in his pleasant affable manner, and which are of tremendous interest to nearly everybody in Edmonton and northern Alberta and many in all parts of the continent was that the contract for the first 150 miles of the A. & G. W. was let on Saturday as above stated. The D. E. McArthur company, of Winnipeg and Edmonton, was the successful tenderer. Work will be started at once, and it is expected that by fall the grading on this section will be completed, carrying the line well past Lac la Biche and that steel will be laid for a considerable portion of the distance.

The Central Canada will also be rushed to completion this year, and Mr. McArthur expects to have the grading done by fall, leaving the road ready for steel and ties, the laying of which will then be proceeded with early in 1915.

Large Bridge Needed

The E. D. & B. C. will be completed, steel and all, as far as the Smoky river, which is mile 510 from Edmonton and over which a giant steel bridge will have to be built. This bridge will be built during the winter of 1914-15 and the road finished to the B. C. boundary the following summer.

Three mammoth steel bridges, spanning three of the great northern rivers, the Pence, Athabasca and Smoky, will be built at a total cost of over a million dollars. The first of these, that over the Athabasca at Smith, is now under way, but in order not to hold up the laying of steel on the E. D. & B. C., a temporary wooden structure is being put in, this one being now almost finished.

Mr. McArthur predicts that steel will reach Sawridge, at the east end of Lesser, Slave Lake, inside of a month when permission will be asked for to run accommodation trains such as are now running as far as Smith.

The townsite of Smith will be placed on the market at once, by the Peace River Land & Development company, Moser-Ryder block, Edmonton. This is the first divisional point, and is just opposite Mirror landing (now Fort Cornwall) at the junction of the Athabasca and Lesser Slave rivers.

Terminals Are Secured

Mr. McArthur stated that the E. D. & B. C. was being operated by the J. D. McArthur company, as a construction company, at present, but that an operating department would be organized as soon as the road was balasted, and that the E. D. & B. C. railway company would operate the road itself. Passenger terminals will be secured with the G. T. P. and C. N. R. and freight terminals in West Edmonton over the tracks of the G. T. P.

"When will the two bridges over the Athabasca at Smith be completed?" Mr. McArthur was asked.

"The railway bridge will be finished in a few days now, and this will allow us to lay steel west. The steel bridge will be finished about July and will be a credit to work of its kind ever carried to completion in this country. We have 150 men working on it now."

"What do you think of the country the E. D. & B. C. is opening up?"

"Oh, it is a great country. It's big enough and rich enough to support a tremendous population, especially by mixed farming. Nobody knows the true extent of its wealth as yet."

Mr. McArthur left over the G. T. P. for Winnipeg Sunday morning. He arrived in Edmonton direct from Ottawa only last Wednesday night, and on Thursday morning was a passenger on the first train to Smith, along with W. R. Smith, chief engineer, W. J. Pace, superintendent, and other officials. He stated Saturday to the Capital that that over 100 miles of steel have been laid on the Hudson Bay road, and this winter will be spent in taking in ties and steel for the balance of the line. He did not state whether the E. D. & B. C. or Central Canada would touch Grouard or not, or what took place in Ottawa in this connection during his recent visit.

MANY RUSSIANS ARE PRESENT AT UNIQUE RELIGIOUS CEREMONY

A most unusual and unique religious ceremony took place in the city yesterday morning, when the Right Rev. Amphilochy, superintendent of the Russian Orthodox church for all Canada, blessed the water of the Saskatchewan. About 700 followers were present at the service, which took place on the river near the east end bridge.

This fest, which is called "The blessing of the water," is solemnized in memory of the baptising of Christ in the river Jordan, and is celebrated in Russia every January in a most solemn manner. The Czar and the royal family attend the ceremony every year in St. Petersburg.

The service yesterday was composed of singing and prayers and the reading of passages of scripture. After the reading of certain portions of the scripture, a salute of guns was fired. This too, is part of the ceremony and in Russia is carried out on a much larger scale, the cannon of the militia being used for the purpose.

MANY SMALL DEBT CASES FOR HEARING AT DISTRICT COURT

The district court opened this morning with Judge Crawford presiding. The following small debt cases left over peremptorily from last court will be heard this week: Muirhead vs. Hanson; Hickey-Henry vs. McCaffrey, Kenway vs. Smith, Ross Brothers vs. Tilley, London Assurance company vs. Oliver, Wills vs. Mah Doon, McPherson vs. Cleland, Barnes et al. vs. Jacques, Edmonton Plumbing vs. Bengar, Jesney vs. Raby, Troughton vs. Liff, Laplne et al. vs. Sandford, Haney vs. Shonkie, Deitrich vs. Carroll.

PROBABLY TRAINS TO PRINCE GEORGE EARLY NEXT MONTH

J. F. Philp, city agent of the Grand Trunk Pacific, has returned from a trip to the end of steel at Prince George. It was merely a holiday trip and held no official significance, but Mr. Philp is delighted with the new country opened up by the road. Being in the passenger department, he is naturally more interested in the possibilities of the new line from a passenger traffic standpoint, and says it will become one of the most favored scenic highways in America for tourists from all over the world. The G. T. P. will build a tourist hotel at Jasper, the second divisional point west, and it rumored will also build one of their famous hostelries at Prince George. There is a good track, which an engineer of the railway commission was inspecting last week. There is a possibility that trains will be running from Edmonton through to Prince George by the first of February.

COMMISSIONERS TO HAVE PROGRAM OF WORK RE-ARRANGED

A progress report from the special committee whose duty it is to re-arrange the work of the city commissioners is all that will be presented to council on Tuesday evening. Alderman Sheppard will not be present and the mayor stated today that nothing of a definite nature would be done in this matter. All the information that his worship had on this subject today is that as far as he himself is concerned he had not changed his views and still expects to see Commissioner Harrison appointed on the new board.

Services in City Churches

"He that loseth his life, the same shall find it," was the text of a very eloquent and inspiring sermon, preached by Rev. E. W. Edwards, M.A., in the Holy Trinity church, yesterday morning. The pulpit was occupied in the evening by Rev. Arthur Murphy, M. A., who addressed the congregation on Moses and the serpent in the wilderness.

Professor W. H. Alexander, of the University of Alberta, delivered a sermon on "The Abundant Life," at the Unitarian church, yesterday morning.

Last night was the last time the congregation will meet in the old Robertson church, to conduct Sabbath worship. Next Sunday the new edifice at the corner of Twenty-third street and Athabasca avenue, will be formally opened to the public by the Rev. Dr. Johnson, of Montreal. On Friday night the ladies of the congregation will hold a reception in the new church so as to give everyone a chance to inspect the new building before its formal opening.

Rev. R. H. Leitch in the morning and Rev. Professor Bland in the evening, were the speakers yesterday at the first anniversary service of Norwood Methodist church. A social gathering will be held in this church tonight when a good musical program will be rendered and Rev. Dr. Riddell and Rev. Dr. Armstrong will deliver addresses to the audience.

Rev. Dr. Dyde, principal of Robertson Presbyterian college, occupied the pulpit in Knox Presbyterian church last night, a very able and inspiring sermon was delivered.

Recital by Mrs. McClung

Mrs. Nellie McClung, the well known authoress of "Sowing Seeds in Danny" and many other books dealing with western life, will give a recital in Grace Methodist church tonight at 8 o'clock. A real treat is in store for those who attend.

Clear Out Ravine.

This morning 220 members of the unemployed league were put to work in clearing out the ravine in Little Rat Creek park. All told, there are now over 350 men on this work, the additional number being made up from the gangs of married men that have been employed by the city now for several weeks.

Back for Meeting.

Alderman May is out of the city today. He left Sunday night for Calgary on a business trip, and expects to be back tomorrow in time for the council meeting in the evening.
